Baking Goods

Almond Extract 16oz
Model: BAK181E16
A concentrated flavoring made from the combination of almond oil with alcohol. It is used as a flavoring in many recipes, especially cakes and pastries. It is best to purchase a small bottle because if it is seldom used, evaporation of the alcohol over time may result in the flavor becoming even more concentrated. For this reason, it is important to keep the bottle tightly closed.

Anise Extract 4oz
Model: BAK187E04
A flavoring produced from dissolving the oil of anise seeds into alcohol. The extract has a sweet licorice taste and is used as a flavoring for cooking.

Arrowroot
Model: BAK100E01
Use in place of cornstarch as a thickener for gravies and sauces. It comes from the tubers of tropical plants and is the only starch with a calcium ash. It is easily digested. Arrowroot is purely the tuber dried and powdered, not refined. Arrowroot requires a lower temperature and a shorter cooking time than cornstarch. Arrowroot is tasteless. Arrowroot is a starch and turns clear when it is cooked. Use 1 tbsp arrowroot with 2 tbsp water to thicken 2 cups liquid. Ing: arrowroot. Nutritional Information: Per 100 Grams Calories 360 Calories from fat 0 Total Fat 0 Sodium 8.5 Total Carbohydrates 89.74 Moisture 10 Calcium 0.45 Iron 0.2 Protein 0.26

Baking Powder
Model: BAK110E01
Baking powder is a dry chemical leavening agent used in baking. There are several formulations; all contain an alkali, typically sodium bicarbonate (baking soda), and an acid in the form of salt crystals, together with starch to keep it dry. When dissolved in water the acid and alkali react and evolve carbon dioxide gas, which expands existing bubbles to leaven the mixture. Most modern baking powders are double acting, that is, they contain two acid salts, one which reacts at room temperature, producing a rise as soon as the dough or batter is prepared, and another which reacts at a higher temperatures, causing a further rise during baking. Baking powders that contain only the low-temperature acid salts are called single acting. Most recipes call for a mixing procedure that is designed to introduce many tiny air bubbles, for example, cream the butter and sugar, which the leavening gas from baking powder will expand. *Aluminum Free* Ingredients: Sodium Acid Pyrophosphate, Sodium Bicarbonate, Corn Starch, Monocalcium Phosphate Nutritional Facts: Per 100 Grams Calories 115 Moisture 6 Ash 66 Total Fat 0 Sodium 15950 Total Carbohydrates 28 Calcium 795 Phosphorus 11280

Baking Yeast 5 Lb
Model: BAK121E05
BAKING YEAST (Red Star) 1 tablespoon = 1 packet - For yeast bread baking. Granular. Store in refrigerator at all times To use baking yeast suspend the yeast in 20-50% of the total dough water warmed to 100-110 degrees F. Soak 5-10 mins, then add remaining ingredients. The remaining water temperature can be adjusted to obtain the desired final dough temperature. Shelf life: Refrigerated - 6 months (vacuum sealed 1 year+) Room Temp - 3 months (vacuumed sealed 1 year+)

Buttermilk Powder
Model: BAK129E01
Use 1 Tablespoon per 1/4 cup in recipesButtermilk is whats left over after the butter has been scooped off the top in the butter making process. Usually with a fleck or two of butter floating on the top that failed to get removed, buttermilk is then further processed by culturing it at around 69 degrees F for 12 to 14 hours which gives it its distinctive, tangy taste. Slightly thicker than milk, cultured buttermilk has a unique flavor all its own that many people like to drink after its been well chilled. People with ulcers or other stomach problems have been drinking small quantities of buttermilk for years. It coats the stomach and brings instant relief. Use buttermilk powder instead of powdered milk or fresh milk to make great tasting buttermilk pancakes, muffins, cakes, bread, soup and even fried chicken.Ing: Dry sweet cream buttermilk

Butterscotch Baking Chips
Model: BAKR219060
Ing: Sugar, Nonfat Milk Powder, Partially Hydrogenated Palm Kernel Oil, Artificial Colors, Soya Lecithin, Mono-Glycerides, Artificial Flavor.

Carob Powder
Model: BAK160E01
IN PLACE OF CHOCOLATE OR COCOA Carob powder is used whenever a recipe calls for chocolate or cocoa. To replace carob for cocoa, simply use the same amount of carob. To replace chocolate with carob, use approximately three tablespoons of carob powder for each square of chocolate that the recipe calls for. IN PLACE OF SUGAR Carob can also be used as a sugar replacement. Carob powder is almost 50% natural sugar and can be used instead of sugar in virtually all bread and pastry products. This includes bread, waffles, cakes, pies, pancakes, cereals (hot or cold), crepes, muffins, etc. Of course, using carob will result in chocolate-brown colored foods and will impart a vaguely chocolate-like flavor. If this is undesirable, you can try mixing various amounts of carob and honey to find the mixture that suits you best. Another reason to use carob is its unique flavor. It s often referred to as a chocolate substitute, but carob does have its own unique flavor which lends itself well to shakes, malts, carob-nut bars, bread products, and even mixed into baked beans and barbecue sauces. Carob powder is somewhat reminiscent of chocolate; a fresh carob pod however, has a flavor more similar to dates. Carob is so different nutritionally and chemically from chocolate that people allergic to chocolate can enjoy carob. NUTRITION Carob is an incredibly rich food source, and it perhaps the ideal survival food since it lasts a long time, requires no special storage conditions, and can be eaten with no preparations. It is rich in calcium, containing 352 mg. per 100 grams, or 1,597 mg. per pound. By comparison, milk -- often regarded as an excellent calcium source -- contains only 120 to 130 mg. of calcium per 100 grams, or 530 to 550 mg. of calcium per pound. Furthermore, carob contains no oxalic acid, as does chocolate, which tends to interfere with the body s ability to assimilate calcium. Carob pods are about four percent protein and 76% carbohydrates. Although carob is very sweet, it contains 60% less calories than chocolate. Additionally, carob contains substantial phosphorus (81 mg. per 100 grams, or 367 mg. per pound), and an abundance of potassium (800 mg. per 100 grams). Carob contains small amounts of sodium and iron, and it is rich in vitamin A, the B vitamins, and many other minerals.Ing: carob.

Egg White Powder
Model: BAK213E01
Use 2 teaspoons powder and 2 tablespoons water = 1 egg white.Refrigerate or freeze for best quality.It produces an exceptionally high volume, stable egg white foam for use in angel food cakes, chiffon pies, meringues, and divinity. Egg white powder is dried egg white (pure albumen). It can be reconstituted by mixing the powder with water. The reconstituted powder whips like fresh egg white and, because it is pasteurized, can be used safely without cooking or baking it. Dry egg products can be stored for 12 months and are a terrific source of nutrition. They are usually sold along with supplies for cake baking and decorating.

Gourmet Pure Chocolate Chips
Model: BAK219E01
Ing: sugar, chocolate liquor, cocoa butter, dextrose, soy lecithin(an emulsifier), van-illin (an artificial flavor).

Kitchen Specialties Dough Enhancer 16oz
Model: BAK125E16
DOUGH ENHANCER:Whole wheat is full of all the great nutrition from bran, shorts and middlings, wheat germ, etc. But, those nutrition-laden items tend to make 100% whole wheat bread heavy and dense. Also, although the bread is great while it is hot, very often it is dry and crumbly the next day. (Do your sandwiches break apart and/or crumble; or, can you wrap a slice of bread around a hot dog?) Another problem often found with whole wheat bread is unsightly shoulders. (This is caused when the sides of the bread droop over the tops of the pans during baking.) SOLVE THESE PROBLEMS with Kitchen Specialties Dough Enhancer. Our Dough Enhancer is a scientific combination of lecithin, vitamin C, and herbs in a whey base. For years bread makers have used these same ingredients to attempt to make their whole wheat bread higher and lighter. Now, the synergism of these ingredients in our Dough Enhancer is many times more effective than using them individually or in part. For each loaf of bread in your recipe just add 2 teaspoons of the Kitchen Specialties Dough Enhancer.Use dough enhancer in breads, cakes, muffins, rolls, ect. Ingredients are: Whey, Soy Lecithin, Tofu powder, Citric Acid, Dry yeast, Sea Salt, Spice Blend, Corn Starch, Ascorbic Acid, Natural Flavors.NUTRITION FACTS:Serving Size: 1 tbsp. Lecithin Granules
Model: BAK190E01
Granulated Lecithin, Use in baked goods for added nutrition. Add 1 teaspoon per loaf of bread to enhance the gluten in the dough.Lecithin is a fatlike substance called a phospholipid. It is produced daily by the liver if the diet is adequate. It is needed by every cell in the body and is a key building block of cell membranes; without it, they would harden. Lecithin protects cells from oxidation and largely comprises the protective sheaths surrounding the brain. It is composed mostly of B vitamins, phosphoric acid, choline, linoleic acid and inositol. Although it is a fatty substance, it is also a fat emulsifier. Hence, it supports the circulatory system. Its choline is useful for making acetylcholine.Everyone should be aware of the benefits of lecithin, which is a fatty substance, or type of lipid, manufactured in the body and used by every cell. It consists primarily of the vitamin B choline, as well as linoleic acid and inositol. You can count on this nutrient to repair damage to your liver, keep your nervous system healthy, and also treat memory loss. Other benefits of lecithin are that it helps prevent arteriosclerosis and cardiovascular disease. Because it has a fatty acid component but is partly soluble in water, it allows fats to leave the body by dispersing them in water. In this way, it protects organs and arteries from dangerous fatty build-ups.If you have liver damage as a result of excessive use of alcohol or because of hepatitis, the benefits of lecithin should make you seriously consider adding this supplement to your diet. As well, because it helps build nerves and supplies choline to the brain to be used in the manufacture of a neurotransmitter, a supplement is recommended for people who are suffering memory loss, particularly the elderly.The benefits of lecithin can be acquired though a combination of lecithin-rich foods and supplements. Lecithin can be found in Brewer s yeast, grains, legumes, fish, peanuts, wheat germ, and, of course, soybeans and egg yolks, the two substances from which it is extracted. Research information suggests you take a supplemental dose of 400 to 1200 milligrams per day with food, or within a multi-vitamin formula.

Lecithin Liquid 16oz
Model: BAK191E16
Fearn, Liquid. To grease pans; 1) Spread a thin layer on the baking pan for quick release of baked goods. OR 2) combine 1/2 cup lecithin and 1 cup liquid vegetable oil. Lecithin is another name for phisohatidyl choline, one of the phosolipids. Phosolipids are indispensible components of cell membranes and also natural emulsifiers, helping fat dissolve in water. Lecithin also contains Phosphatidial Serine, Phosphatidyl Inositol and Phospholipids Ethanolamine. Phospholipids contain fatty acids. Licithin contains Choline which is used in the body to manufacture brain neurotransmitters. Lecithin helps support a healthier cardiovascular system.

Lecithin Liquid 32oz
Model: BAK192E32
Fearn, Liquid. To grease pans; 1) Spread a thin layer on the baking pan for quick release of baked goods. OR 2) combine 1/2 cup lecithin and 1 cup liquid vegetable oil. Lecithin is another name for phisohatidyl choline, one of the phosolipids. Phosolipids are indispensible components of cell membranes and also natural emulsifiers, helping fat dissolve in water. Lecithin also contains Phosphatidial Serine, Phosphatidyl Inositol and Phospholipids Ethanolamine. Phospholipids contain fatty acids. Licithin contains Choline which is used in the body to manufacture brain neurotransmitters. Lecithin helps support a healthier cardiovascular system.

Lemon Extract 4oz
Model: BAK188E04
These natural flavors are perfect for the health-conscious cook because they contain no colors, sugar, salt, artificial ingredients or preservatives of any kind.

Malt Sweetened Chocolate Chips
Model: BAK172E02
Sunspires own alternatively sweetened chocolate chips use malted grains (barley and corn) for a delicious alternative to refined sugars. This specially formulated grain sweetener allows the chocolate s taste to be enjoyed more fully, rather than being masked by sugar and flavorings.

Malt Sweetened Chocolate Chips 10oz
Model: BAK170E10
Sunspires own alternatively sweetened chocolate chips use malted grains (barley and corn) for a delicious alternative to refined sugars. This specially formulated grain sweetener allows the chocolate s taste to be enjoyed more fully, rather than being masked by sugar and flavorings.

Mini Semi Sweet Chocolate Chips
Model: BAKR219105
ING: Sugar, Chocolate Liquor, Cocoa Butter, Dextrose, Soy Lecithin added as an emulsifier, Vanillin (an artificial flavor)

Non Alcoholic Almond 16oz
Model: BAK179E16
A concentrated flavoring made from almond oil without alcohol. It is used as a flavoring in many recipes, especially cakes and pastries.

Non Alcoholic Vanilla 16oz
Model: BAK184E16
A liquid flavoring derived from a vanilla bean grown in the pod of a plant that is a member of the orchid family.

Nonfat Milk Powder 5 Lb
Model: BAK210E05
Non-Fat, Non-Instant Mix in a blender or with an egg beater 1/4 cup milk powder with a cup of water Use more powder for richer taste.

Nutritional Yeast
Model: BAK220E01
Use as a nutritional supplement, rich in B vitamins. Sprinkle on foods or popcorn for a cheesy flavor. NOT for yeast bread baking. Nutritional Yeast contains a high concentration of the B-complex vitamins*, keys to a healthy life. These vitamins are known to help persons suffering from nervous disorders, depression, stress and anxiety, As well as those dealing with migraines, asthma, anemia, allergies, and women suffering from candida and premenstrual tension, making nutritional yeast a valuable supplement for daily life. Nutritional yeast is also an excellent source of complex carbohydrates (beta-1, 3 glucan and mannan). These dietary fibers have been shown to have a positive relationship to decreased serum cholesterol. Glutathione, an antioxidant also found in nutritional yeast, plays an important role in cellular defense mechanisms. Red Star's specific cultivation methods allow for the presence of these beneficial components, setting nutritional yeast apart from brewers and active baking yeast. It is not a dairy yeast product, such as whey yeast, nor does it contain added sugars or preservatives. Nutritional Yeast is best kept stored in an airtight container in the refrigerator or in a cool dry place.

Organic Cocoa Powder 8oz
Model: BAK168E08
This rich, non-alkaline cocoa powder is perfect for the organic home baker. AH!LASKA's signature brownie recipe is conveniently listed on the label.

Organic Dark Chocolate Chips
Model: BAK218E01
Ing: Organic sugar, organic chocolate liquor, organic cocoa butter, organic soy lecithin (an emulsifier), and organic vanilla.

Organic Valley Nonfat Organic Milk Powder 12oz
Model: BAK211E12
Organic, Non-Instant, Grade A Perfect for cooking, baking or drinking, our nonfat dry milk is made from Organic Valley's certified organic skim milk. Add 3 tablespoons Organic Valley Nonfat Dry milk to 1 cup cold water. Stir, shake or blend vigorously. For a thicker taste, use 4-5 tablespoons dry milk to 1 cup cold water.

Organic Vanilla Extract 4oz
Model: BAK182E04
A liquid flavoring derived from a vanilla bean grown in the pod of a plant that is a member of the orchid family. The extract is made by soaking vanilla beans in water and an alcohol-based solution where it ages for several months, during which time the vanilla flavor is extracted from the bean.

Potato Starch
Model: BAK397050
Pure white potato starch is a great thickener for soups, stews, and other dishes! Its properties reduce clumping while cooking, and can be used in place of cornstarch. Pure potato goodness!

Real Salt
Model: BAK237E05
<p>Long before the earth knew pollutants of any kind, a huge, ancient sea covered what is now North America. Pure, natural salt was the main ingredient of this sea, and over millions of years, the water evaporated, leaving the salt in undisturbed deposits. At some point during the earth's Jurassic era, a range of volcanos erupted around the ancient sea bed, sealing the salt with layers of thick volcanic ash, protecting these precious deposits against the pollution that man would eventually introduce into the environment. Near the small town of Redmond, in central Utah, approximately 200 miles south of Salt Lake City, we extract this hand-selected salt from deep within the earth, and bring it to you in its pure, natural state-without any additives, chemicals, or heat processing. This is RealSalt, full of flavor and natural goodness-the way salt was meant to be savored! The RealSalt Difference Compared to RealSalt brand salt, many sea salts appear stark white because they have undergone a harsh refining process. Unlike RealSalt, these salts are filled with silicates, dextrose, and other additives. By contrast, RealSalt is an all-natural, kosher-certified sea salt extracted from deep within the earth, crushed, screened, and packaged. RealSalt's unique flecks of color are the result of more than 50 natural trace minerals essential to human health (including natural iodine!). Experience the goodness of RealSalt!</p>
Real Salt Pouch 26oz
Model: BAK236E26
<p>Long before the earth knew pollutants of any kind, a huge, ancient sea covered what is now North America. Pure, natural salt was the main ingredient of this sea, and over millions of years, the water evaporated, leaving the salt in undisturbed deposits. At some point during the earth's Jurassic era, a range of volcanos erupted around the ancient sea bed, sealing the salt with layers of thick volcanic ash, protecting these precious deposits against the pollution that man would eventually introduce into the environment. Rennet Tablets .23oz
Model: BAK130E01
<p>Junket, Vegetable source. For custards and ice cream. Junket rennet tablets for making rennet custard and ice cream. Directions enclosed for making custard, cottage cheese, sugar free desserts, ice cream and other desserts. .23-oz. box. Each box contains 8 foiled-packed tablets that are the size of a dime. Ing: Salt, Calcium Lactate, Corn Starch, Rennet Tricalcium Phosphate, Calcium Stearate (Food Grade)</p>
Rich Cocoa Powder
Model: BAK165E01
<p>Unsweetened. Excellent baking quality. Dutch cocoa. Can easily replace baking chocolate; use 3 tablespoons cocoa and 1 tablespoon oil. Dutch-Processed or Alkalized Unsweetened Cocoa Powder is treated with an alkali to neutralize its acids. Because it is neutral and does not react with baking soda, it must be used in recipes calling for baking powder, unless there are other acidic ingredients in sufficient quantities used. It has a reddish-brown color, mild flavor, and is easy to dissolve in liquids. Its delicate flavor makes it ideal in baked goods like European cakes and pastries where its subtle flavor complements other ingredients.</p>

SAF Instant Yeast 16oz
Model: BAK119E16
SAF - INSTANT YEAST 16oz (1lb)-Used by professional bakers. Vacuum sealed. Superior for whole wheat yeast bread baking. More concentrated, more tolerant of temperature than other yeast. -(2 tsp = 1 packet) Store in refrigerator after opening.-SORBITAN MONO-STEARATE: Emulsifier and stabilizerDIRECTIONS: mix with flour or add to dough during first stage of mixing. Keep out of direct contact with ice water.INGREDIENTS: yeast (saccharomyces cerevisiae), sorbitan monostearate, ascorbic acidNutritional Facts:Per 100 GramsCalories 380 - 400Fat 5-8 - Saturated 1-2 - Unsaturated 4-6Cholesterol less than 0.05Dietary Fiber 22-27Iron 3-7Calcium 20-70Sodium 30-120Potassium 1500-1900Moisture 4 - 6Protein 46 - 50Ash 4 - 6Carbohydrates 34 - 40 - Complex 34 - 40 - Sugars

Sea Salt
Model: BAK230E01
Ing: salt, magnesium carbonate.Magnesium carbonate is a mineral added to keep it free flowingBoth sea salt and rock salt were well known to the ancient Greeks who noted that eating salty food affected basic body functions such as digestion and excretion (urine and stools). This led to salt being used medically. The healing methods of Hippocrates (460 BC) especially made frequent use of salt. Salt-based remedies were thought to have expectorant powers. A mixture of water, salt, and vinegar was employed as an emetic. Drinking a mixture of two-thirds cow s milk and one-third salt-water, in the mornings, on an empty stomach was recommended as a cure for diseases of the spleen. A mixture of salt and honey was applied topically to clean bad ulcers and salt-water was used externally against skin diseases and freckles. Hippocrates also mentions inhalation of steam from salt-water. We know today that the antiinflammatory effects of inhaled salt provide relief from respiratory symptoms (c). Thus, 2000 years ago, Greek medicine had already discovered topical use of salt for skin lesions, drinking salty or mineralized waters for digestive troubles and inhaling salt for respiratory diseases!

Seed Pearl Tapioca
Model: BAK300E01
For puddings or as a thickenerTapioca is a starch from a tropical plant known as the manioc - having the capacity to swell in hot liquid and thicken upon cooling.SLOW COOKER RECIPE2 qt milk1 cup seed pearl tapioca1 - 1 1/2 cups sugar4 eggs1 t vanilla1. Combine milk, tapioca, and sugar in slow cooker. Cook on High 3 hours2. Mix together eggs, vanilla, and a little hot milk from slow cooker. Add to the slow cooker. Cook on High 20 more min. ChillTAPIOCA CREAM3/4 cup pearl tapioca3 cup milk 3 egg yolks1/2 t salt3/4 cup sugarSoak tapioca in water overnight. Scald milk in double boiler. Stir in drained tapioca. When transparent, add beaten egg yolks, salt and sugar. Stir until thick. Cool

Sunspire Chocolate Almonds
Model: BAK175E01
Delectable dry-roasted organic almonds generously draped in the finest 100% organic dark chocolate.

Sunspire Chocolate Raisins
Model: BAK174E01
Plump organic raisins wrapped in rich coat of the finest 100% organic dark chocolate.IngredientsOrganic dark chocolate (organic sugar, organic cocoa paste, organic cocoa butter, non-GMO lecithin [an emulsifier], organic vanilla), organic raisins, tapioca dextrin, orange dewaxed unbleached glaze. Made in a facility that processes peanuts, tree nuts, dairy, wheat and soy. Not guaranteed gluten-free.

Sunspire Sundrops
Model: BAK173E01
Our signature item is SunDrops®, a natural alternative to M&M s®. Crafted with the same careful attention to detail as all other Sunspire products, these coated chocolate candies contain no artificial colors, flavors or preservatives. Their bright candy color comes from beet juice, beta carotene and natural caramel. Their yummy chocolate centers are made with rich milk chocolate, sweetened with evaporated can juice and a touch of unsulphered molasses.
Sweetened Carob Chips
Model: BAK150E01
Containing only a third of the calories of chocolate, carob is fat free and rich in sucrose and pectin. Use instead of Chocolate Chips in recipes. Ing: sugar, partially hydrogenated palm kernel oil, carob powder, sorbitan monostearate (an emulsifier), and soya lecithin (an emulsifier).
Tapioca Starch
Model: BAK396212
Used to thicken various Oriental dishes. Made from pure tapioca, the general purpose is similar to flour. Also an important ingredient in various Thai desserts. Flavor Profile - Light flavors such as vanilla, peach and lemon, are not masked by tapioca. This is because tapioca contains no impurities, while cereal based starches contain phospholipids which can provide an after taste. Appearance - Tapioca pastes, films and gels are clearer than other starches. Fruit fillings look more appetizing. Non-Allergetic - Tapioca is gluten-free and easier to digest. That has led to its widespread use in baby foods. Ideal Viscosity - Tapioca exhibits a lower viscosity while hot, which facilitates processing
The Real Salt 9oz
Model: BAK235E09
Long before the earth knew pollutants of any kind, a huge, ancient sea covered what is now North America. Pure, natural salt was the main ingredient of this sea, and over millions of years, the water evaporated, leaving the salt in undisturbed deposits. Vanilla Extract 16oz
Model: BAK183E16
A liquid flavoring derived from a vanilla bean grown in the pod of a plant that is a member of the orchid family. The extract is made by soaking vanilla beans in water and an alcohol-based solution where it ages for several months, during which time the vanilla flavor is extracted from the bean.
Whole Egg Powder
Model: BAK212E01
2 Tablespoons Of Egg Powder & 1/4 Water = 1eggRefrigerate or freeze for best quality.Dried whole egg powder - use in cookies, layer cakes, pond cakes, noodles, mayonnaise, pies, sweet goods, dairy products and other whole egg applications

Beverages - / - Dairy Alternatives

Chocolate Enriched Rice Milk
Model: BEV640E32
There is a reason why Rice Dream Enriched is America s best-selling rice beverage. Not only is it the perfect non-dairy beverage, but also it is enriched with vitamins A, D & B12, has the same calcium as milk and is low fat and all natural!

Organic Vanilla Edensoy 32oz
Model: BEV532E33
The only soymilk made in North America with 100 percent Real Vanilla Extract. No refined sweeteners. The finest ingredients, reverse osmosis purified water, 240 continuous quality control checks, and years of research into how to best cook soy protein, guarantees the best flavor, most nourishing soymilk, and your satisfaction. Tested GEO free. Certified organic, kosher and parve. Heart Healthy* soy protein. Ingredients:Purified Water, Organic Soybeans, Naturally Malted Organic Wheat and Barley Extract, Vanilla Extract, Calcium Carbonate, Kombu Seaweed, Sea Salt

Original Edensoy Extra 32oz
Model: BEV542E33
North Americas first soymilk, EDENSOY Extra is fortified with the finest vegan calcium, vitamin D2, vitamin E, vitamin B12, and beta carotene vitamin A. No refined sweetener. The finest ingredients, reverse osmosis purified water, 240 continuous quality control checks, and years of research into how to best cook soy protein, guarantees the best flavor, most nourishing soymilk, and your satisfaction. Tested GEO free. Certified organic, kosher and parve. Promotes Cardiovascular Health.Ingredients:Purified Water, Organic Soybeans, Naturally Malted Organic Wheat and Barley Extract, Calcium, Carbonate, Kombu Seaweed, Sea Salt, Vitamin E, Beta Carotene, Vitamin D2, Vitamin B-12

Original Enriched Rice Milk
Model: BEV624E32
There is a reason why Rice Dream Enriched is America s best-selling rice beverage. Not only is it the perfect non-dairy beverage, but also it is enriched with vitamins A, D & B12, has the same calcium as milk and is low fat and all natural!

Original Lite Rice Milk
Model: BEV622E32
Ingredients: Filtered water, certified organic brown rice (partially milled), expeller pressed high oleic safflower oil, sea salt.

Original Organic Edensoy 32oz
Model: BEV522E32
North Americas first soymilk, EDENSOY Extra is fortified with the finest vegan calcium, vitamin D2, vitamin E, vitamin B12, and beta carotene vitamin A. No refined sweetener. The finest ingredients, reverse osmosis purified water, 240 continuous quality control checks, and years of research into how to best cook soy protein, guarantees the best flavor, most nourishing soymilk, and your satisfaction. Tested GEO free. Certified organic, kosher and parve. Promotes Cardiovascular Health.Ingredients: Purified Water, Organic Soybeans, Naturally Malted Organic Wheat and Barley Extract, Calcium Carbonate, Kombu Seaweed, Sea Salt, Vitamin E, Beta Carotene, Vitamin D2, Vitamin B-12

Plain Low Fat Westsoy
Model: BEV758E32
If you are watching your fat intake but want to enjoy the benefits of soy, this is the perfect product. These yummy soymilks are rich and creamy and contain 18 mg of isoflavones, calcium, and vitamins A and D- and low in fat. This low fat soymilk compares to 2% dairy milk.

Plain Plus Westsoy
Model: BEV750E32
Enjoy this delicious non-dairy fortified soymilk. We took all the benefits of soymilk that included 25 mg of soy isoflavones, and paired them with calcium, vitamins A and D and riboflavin. This way you can use Plus as you would whole dairy milk and won't miss out on the nutrition.

Sno*E Tofu 19.2oz
Model: BEV141E21
SNO*E TOFU is a non-dairy soy beverage mix that costs even less than milk. It is delicious tasting, contains as much calcium as milk, and is a good source of vitamins. It is free of cholesterol, lactose, and added MSG. It is in powder form and is ideal for pantry storage. Simply mix with water and enjoy. Once mixed, SNO*E TOFU will remain fresh at least a week with refrigeration. In a mixer/server/pitcher, or a container with a screw-on lid, add 1 rounded cup of Sno*E Tofu™ (more or less for a creamier or lighter taste) to about 2 cups of hot or cold water (hot water makes a creamier mix). Blend or shake vigorously until thoroughly mixed (will not mix well by stirring only). Then add enough cold water to make 2 quarts and chill. Stir well before serving and enjoy.

Sno*E Tofu Bulk
Model: BEV142E25
SNO*E TOFU is a non-dairy soy beverage mix that costs even less than milk. It is delicious tasting, contains as much calcium as milk, and is a good source of vitamins. It is free of cholesterol, lactose, and added MSG. It is in powder form and is ideal for pantry storage. Simply mix with water and enjoy. Once mixed, SNO*E TOFU will remain fresh at least a week with refrigeration. Books

Healthful Cookies

Model: BOK163E01

An empty cookie jar again? How about filling it with healthful morsels that you and your family can enjoy without the guilt of having eaten too many unhealthy sweets. This collection is tested and approved by the family of the readers of Keepers at Home magazine. One cookie calls for another and soon it will be baking time again.

Homemade Breads

Model: BOK160E01

A delicious aroma fills every corner of your kitchen. Hot, steaming, golden brown loaves leave the oven to cool on the kitchen table. Oh, the satisfaction of making your own bread! That's exactly what Homemade Breads will do. Here's over 60 ways to help you experience the satisfaction of making a variety of breads for your family

Homemade Cereals

Model: BOK162E01

Give your family a healthy start each morning with your own homemade cereals. The grain food group is an all-time favorite for many people and its variations are unlimited. In this booklet you will find 31, all under the name granola. And then there are corn cereals, baked cereal cakes, cooked cereals, and toasted cereals. No store-bought cereals will provide your family with the same wholesome homey breakfast as your own fresh cereals.

Homemade Pies

Model: BOK164E01

Flour dust on your hands, Mom's favorite apron, oven at 350 degrees, rolling pin, pie dough and a sweet gooey filling...all for the mouthwatering flavor of your favorite homeade pie. Apple, peach, rhubarb, shoofly, pumpkin, custard, and over 80 other mouthwatering pies featured here are sure to delight family and friends

Homemade Pizzas

Model: BOK161E01

Pizza is no longer a crust with tomato, pepperoni, and cheese-but has been developed into a thick and luscious dish that makes a complete meal in itself. If you love pizza and wish you could have it all day, your wish can now be realized since we offer breakfast pizza, pizza appetizers, pizza casseroles, fruit and vegetable pizza, and many flavors of the regular hearty style you're used to. Or you can create your own. Just top a crust and call it pizza.

Homemade Salad Dressings

Model: BOK166E01

Homemade Salad Dressings is packed with 85 new ways to liven up your salads, with a special section on vegetable and fruit dips. Low cholesterol, no-oil, poppy seed, herb, french, sweet-n-sour, tahini, mexican all of these and a lot more! So don't settle for just any dressing, try something new!

Hot & Hearty Soups
Model: BOK165E01
Chase away the shivers with a steaming cup of hot soup on a snowy winter evening. These recipes are tried and true favorites from the readers of Keepers at Home magazine. Just a whiff of the savory aromas will rouse memories of a mother's delicious meals after a day of hard work. Make a meal and create a memory!

Simply in Season Children's Cookbook
Model: BOK401E01
Simply in Season Children's Cookbook will help children make the connection between what they eat, where it comes from, and when it is in season. This colorful and chock-full-of-photos cookbook makes it easy and fun for children to think and cook in season and to center food around the table and give thanks for it. An imaginative, active way to invite kids of all ages, but especially 6-to-12-year-olds, to get in touch with real food, to see where it comes from, to take responsibility for preparing it, and to have fun in the process. Simply in Season Children's Cookbook promotes whole foods in a whole life experience - from growing foods to growing kids! - Mary Beth Lind, co-author of Simply in Season Commissioned by Mennonite Central Committee (MCC), the service and relief organization of the Mennonite and Brethren in Christ churches of Canada and the United States

Simply In Season Cookbook
Model: BOK400E01
Not so long ago most fresh food on North American tables came from home gardens and local farmers markets. Today, the average item of food travels more than a thousand miles before it lands on our tables. It's a remarkable technological accomplishment, but has not proven to be healthy for our communities, our land or us. Through stories and simple "whole foods" recipes, Mary Beth Lind and Cathleen Hockman-Wert explore how the food we put on our tables impacts our local and global neighbors. They show the importance of eating local, seasonal food—and fairly traded food—and invite readers to make choices that offer security and health for our communities, for the land, for body and spirit. "You'll find other seasonally-organized cookbooks, but Simply in Season is unique in that it talks about some of the faith-based reasons behind many Christians' choices to live and eat in this way," says Hockman-Wert. "We don't always think in these terms, but we all have values that influence the way we live and eat, the foods we purchase and where we buy them." Hockman-Wert and Lind both feel that the biggest factors in making food decision are cost (stewardship of money) and convenience (stewardship of time.) Simply in Season, they say, highlights other values that can come into play as we make these daily choices – such as care for God's creation, care for local neighbors who farm, and care for people around the world whose lives are deeply affected by our global agricultural systems. "These are complex issues, but Simply in Season seeks to introduce readers to them, and to celebrate all that's good about eating local food," says Lind. Simply in Season offers a starting point encouraging you to feed both your body and spirit with nutritious food and challenging ideas about the world around you. Woven throughout the recipe pages of each season are writings, tidbits of information to reflect upon while the onions saute, the soup boils, or the bread bakes. The book is forwarded by Graham Kerr (The Galloping Gourmet) who writes: "This cookbook reflects . . . a commitment to eat what is fresh and best in season. Here you will read about how real people grow and use the natural bounty of the lands they call home. Enjoy the flavors and gifts of this book,"

The Sweet Potato Cookbook
Model: BOK140E01
This unique collection of information about sweet potatoes and recipes using them as the key ingredient contains more than 100 mouth-watering, tantalizing recipes for snacks, appetizers, soups, main courses, and even desserts.

Cereal - / - Cold Cereal

Apple-Cinnamon Oatios 10 Oz

Model: CER250E10

Organic toasted oat ring cereal made with delicious apple and cinnamon flavors. Absolutely no artificial colors, flavors, or preservatives!

Arrowhead Mills Puffed Corn 6oz

Model: CER351E06

Corn, a True Early American Food. Originating from ancient Mesoamerican civilizations, maize is derived from gigantic domesticated grass. It is the only grain commonly eaten in its natural form. This staple food is hearty and flavorful, and makes a delicious puffed cereal. Ingredients: puffed whole grain yellow corn.

Arrowhead Mills Puffed Kamut 6oz

Model: CER350E06

Kamut (kah-moot), the Great-Great Grandfather of Grains. Derived from the ancient Egyptian word for Wheat, this high-energy grain was discovered thousands of years ago. With kernels two to three times the size of its modern relative, Kamut delivers rich flavor and great nutrition for a valuable addition to any diet. Ingredients: puffed organic whole grain kamut.

Arrowhead Mills Puffed Millet 6oz

Model: CER352E06

Millet, the Little Giant. The smallest of all grains, Millet has been cultivated in the East since 4000BC. With its complete protein and low fat composition, this is truly a wheat free gem! Ingredients: puffed whole grain millet.

Arrowhead Mills Puffed Rice 6oz

Model: CER353E06

Rice, the Symbol of Life and Fertility. The second largest world crop, rice is a staple food in Asia. Unlike most grains, this grain is traditionally grown on small paddies and harvested by hand -- just as it has been for centuries. Brown rice is the whole rice kernel, higher in fiber, vitamins and minerals than white rice. Ingredients: puffed whole grain brown rice.

Arrowhead Mills Shredded Wheat 13oz

Model: CER342E13

Bite size shredded wheat was originally developed around the turn of the century in a small plant electrically generated by Niagara Falls. Offering whole grain goodness made from 100% whole wheat, Arrowhead Mills Shredded Wheat is rich in fiber and low fat, with no salt or sugar added. Purely wheat, from the pure earth. Ingredients: organic whole grain wheat, natural Vitamin E (to preserve freshness).

Barbaras Cinnamon Puffins

Model: CER260E12

Each Box Contains: 12 oz. (340g) All-natural crunchy corn pillows dusted with cinnamon. Bunker Hill Raw Milk Cheddar
Model: CHB411E01
We cannot certify that milk is not heated above 100 degrees because it gets heated in a steam jacketed vat during the make process. This is known as cooking the curd and is usually done for all cheesemaking above 100 degrees. I do not know how you can make cheese without heating. Perhaps what your customer may be referring to is the principle that some companies make raw milk cheese by legally pasteurizing the milk then adding back some small volume of raw milk in the make vat to render the product unpasteurized or raw. We do not pasteurize the milk used to make raw milk cheese at Bunker Hill Cheese Co.r/BST r/BGH FREE100% Amish MilkIngredients: Milk, Cheese Culture, Enzymes, Salt.

Garden Of Eatin Blue Chips
Model: CCS110E09
This is the concept that has become such a popular snack. The Original Blue Corn Tortilla Chips. Yes, they re actually blue in color because many years ago our founder Al Jacobson bought an entire crop of blue corn (an ancient tradition of the Hopi and Zuni tribes -- people who really know their corn) and thought it would make a great tortilla chip. Was he right! (Al got a lot of things right.) Ingredients: Organic blue corn, expeller pressed oleic safflower and/or sunflower oil, sea salt.

Green Mountain Gringo Tortilla Strips 8oz
Model: CCS124E08
A solid rectangle of pure leverage makes it stable enough for the most aggressive of dippers. Either end features an ergonomic handle allowing even the power dipper an enjoyable experience. Sturdy and dependable, they won t break short of your expectations. Made from 100% Masa Harina corn flour, cooked in all natural Canola oil and topped with a pinch of salt. You ll be glad we took the time to get it right. INGREDIENTS: Masa Harina corn flour, canola oil, salt

Ak-Mak Crackers 4.75oz

Model: CCS510E04

100% Whole wheat stone ground sesame crackers. Low fat. No cholesterol. From the vicinity of Mt. Ararat - the cradle of civilization and the ancient land made famous by Noah s Ark - Kama Bakeries brings you the Original Armenian Cracker Bread - Kama the Cracker Bread with a 3,000 year history. Ak-mak is essentially a whole wheat product. I Ak-mak a nutritious cracker? Does Ak-mak have any nutritional value for you and your family? We will tell the story as it is and let you and your family decide. Rice has been, and is, the staple food of the Chinese and other Oriental people for centuries. Corn and beans have been the staple food of the South Americans, Greeks, Romans, and Hold Land people for nigh onto 4500 years, In the Biblical days it was considered an important part of the diet. We at Ak-mak are brining to you a high-protein wheat as well as the highest quality wheat that is available on the American market - without preservatives. This whole wheat is ground into flour in stone mills. The bran, germ, and endosperm are thoroughly blended into a complete whole wheat flour - nothing added, nothing removed.

Model: CON576E24
Legend has it that Puttanesca originated in ancient Italian seaports like Naples, the inspiration for our version of this classic sauce. Ladies would simmer pots of this piquant sauce of olives, capers, red chilies, garlic and anchovy near an open window, luring in customers with its irresistible aroma. Ingredients Tomatoes*, tomato puree*, kalamata olives*, extra virgin olive oil*, green olives*, capers*, garlic*, sea salt, anchovy paste (fish), locust bean gum*, red chilies*, black pepper*, garlic flavor*. * = Certified Organic

Organic Tomato Basil Pasta Sauce 26oz
Model: CON571E26
Prego Organic Italian Sauce is made with organically grown vine-ripened tomatoes, and a blend of organic herbs. Ingredients: Organic Tomato Puree (Water, Organic Tomato Paste), Diced Organic Tomatoes in Organic Tomato Juice, Organic Canola Oil, Organic Sugar, Salt, Organic Dehydrated Garlic, Organic Basil, Citric Acid, Dehydrated Organic Parsley, Organic Oregano, Organic Spice, Organic Flavoring.

Organic Tuscan Tomato & Garlic Sauce
Model: CON577E24
Perhaps the only thing better than a roaring campfire is a roaring campfire roasting fresh organic vegetables. Fire-roasted tomatoes, garlic and onions infuse this Tuscan-style sauce with a strikingly smoky goodness. Add your own organic vegetables or serve it straight. Or, best yet, with a campfire on the side. Ingredients Fire roasted tomatoes*, tomato puree*, onions*, garlic*, extra virgin olive oil*, sea salt, parsley*, basil*, locust bean gum*, garlic flavor*. * = Certified Organic

Dried Fruit

Cherry Chews
Model: DRF135E01
Ingredients: Red Tart Cherries, Corn Syrup, Ascorbic Acid, Citric Acid

Crystallized Ginger Slices
Model: DRF160E01
Ingredients: Ginger, Sugar, Sulphur Dioxide

Date Pieces In Oat Flour
Model: DRF150E01
Ingredients: Dates and Oat Flour NO SULFUR

Dried Blueberries
Model: DRF343E01
Ingredients: Wild Blueberries, Corn Syrup, Blueberry Juice, Ascorbic and Citric Acid.

Golden Natural Raisins
Model: DRF222E01
A raisin that is treated with sulphur dioxide, which prevents the raisin from darkening. Golden raisins are dried with artificial heat, which results in a moister, plumper product. They have a sweet but tangier flavor than the dark raisins.

Golden Toasted Shredded Coconut
Model: DRFR204068
Golden Toasted Coconut is made by sweetening desiccated coconut and toasting it. Ing: desiccated coconut (contains sulfite), sugar, dextrose and salt.

Low Sugar Unsulphered Ginger Slices
Model: DRF159E01
Crystallized ginger is a form of ginger that has been chopped into small bits, cooked in a syrup and then coated with sugar. This candied version is a common form used for meats, poultry, desserts, cookies such as ginger cookies, and sweets. It is also added as an ingredient or as a melted topping for glazes and sweet toppings.

Mango Slices
Model: DRF161E01
MANGOS AND SUGAR Preserved with sulphur dioxide

Natural Pitted Prunes
Model: DRF190E01
NATURAL PRUNES SUNSWEET potassium sorbate added as a preservative (did not list sulphur as an ingredient)

Natural Turkish Apricots
Model: DRF120E01
Picked at peak ripeness, these are naturally sweet and mellow. They re a wholesome, delicious treat when eaten alone and make a wonderful addition to salads and other dishes. Sulphered.

Organic Banana Chips
Model: DRF131E01
INGREDIENTS: Organic bananas, Organic veg oil, organic brown sugar, honey

Organic Black Mission Figs
Model: DRF331E01
Figs, like all dried fruit are great as a snack food. Figs are delicious in desserts like cookies, baked apples, rice and b read puddings. Add them to fruit salads, compotes, pie and cake fillings.

Organic Pitted Prunes
Model: DRF192E01
Organic

Organic Raisins 1 pound
Model: DRF232E01
A dried grape, which are eaten out of hand or added to baked goods, as well as sweet and savory dishes. Thompson green grapes can be processed into either dark and golden seedless raisins, changing in both appearance and taste. To create the dark raisins from green grapes, the grapes are sun-dried for several weeks, which causes them to take on a dark, shriveled appearance.

Organic Raisins 4 pounds
Model: DRF233E04
A dried grape, which are eaten out of hand or added to baked goods, as well as sweet and savory dishes. Thompson green grapes can be processed into either dark and golden seedless raisins, changing in both appearance and taste. To create the dark raisins from green grapes, the grapes are sun-dried for several weeks, which causes them to take on a dark, shriveled appearance.

Organic Sweetened Dried Cranberries
Model: DRF342E01

Organic Turkish Apricots
Model: DRF122E01
Picked at peak ripeness, these are naturally sweet and mellow. They re a wholesome, delicious treat when eaten alone and make a wonderful addition to salads and other dishes. Unsulphered

Organic Turkish Figs
Model: DRF330E01
Moist and succulent, Turkish Figs are simply great! These figs are all natural with no preservatives and one of the sweetest fruits available. Always moist and always fresh, these are tops when it comes to snacking and baking.

Organic Unsweetened Coconut 2 pounds
Model: DRF140E01
Organic Unsweetened, Unsulphured Dried Coconut

Papaya Chunks
Model: DRF172E01
Dehydrated papaya chunks are prepared from sound, mature fresh papaya which has been peeled, cut to desired shape, and processed by hot air dehydration, preceded by calcium firming and syruing. The product has a uniform red color and a distinct and normal flavour charecteristic of processed mature papaya spears. It shall be free of mold and infestation.INGREDIENTS: Raw Materials: Fresh Papaya and Cane Sugar. Additives: Calcium Chloride (improves texture)

Pineapple Rings
Model: DRF180E01
Unsulphered candied rings of pineapple. Ing: fresh pineapple, sugar.

Pitted Dates
Model: DRF152E01
Unsulphered. An oblong, brown, and very sweet fruit of the date palm tree native to the eastern Mediterranean and western Asia. The fruit surrounds a large pit that must be removed for eating, but dates can be purchased with the pit removed. They make an excellent snack and are an ingredient in many desserts and savory Middle Eastern dishes.

Raspberry Flavored Cranberries
Model: DRF340E01
Ingredients: Sugar, Cranberries, Citric Acid, Natural Raspberry flavor, with other natural flavors, Elderberry Juice Concentrate, Sunflower Oil

Sweetened Banana Chips
Model: DRF130E01
Ing: Banana, coconut oil, sugar, banana flavoring.

Sweetened Dried Cranberries
Model: DRF341E01
Ing: cranberries, sugar, sunflower oil.

Frozen - / - Applegate

Applegate Beef Hotdogs 12oz
Model: FRZ300E01
Whether you like your hot dogs roasted on a grill or steamed with sauerkraut, our Organic Beef Hot Dogs are sure to hit the spot. These franks are made with select cuts of USDA certified organic beef, and are lower in fat than your average beef hot dogs. Ingredients: Organic Beef, Water, Sodium Lactate (From Beets), Sea Salt, Organic Honey, Organic Evaporated Cane Juice, Organic Spices, Celery Juice, Organic Paprika, Lactic Acid Starter Culture (Not From Dairy).

Applegate Chicken Nuggets
Model: FRZ308E08
Looking for a healthy chicken nugget that tastes great? Well, you've come to the right place. Our chicken nuggets are made from simple ingredients and are free of chemical preservatives and fillers. We only use select cuts of antibiotic-free thigh and breast meat in our nuggets, which are coated with a light, tempura style breading. They're crisp, natural and delicious, and sure to have the little ones asking for more. Ingredients: *Chicken, Water, Salt Breading with: Wheat Flour, Sugar, Yeast, Soybean oil, Salt Battered With: Water, Wheat Flour, Corn Starch, Yellow Corn Flour, Salt. Breading Is Set In Soybean Oil *Chicken Used Never Administered Antibiotics

Applegate Organic Beef Stadium Hotdogs
Model: FRZ302E16
Close your eyes and take your tastebuds out to the ball game. This all organic beef frank is made from USDA Certified beef and is free of nitrites and chemical preservatives. Organic Beef, Water, Sodium Lactate (From Beets), Sea Salt, Organic Garlic, Celery Juice, Organic Spices, Organic Paprika, Lactic Acid Starter Culture (Not From Dairy).

Applegate Oven Roasted Turkey 7oz
Model: FRZ319E07
Our famous Roasted Turkey is a staple food for many of our customers, and for good reason! It's low in fat and high in protein, plus it's free of nitrites and antibiotics. But best of all, it's delicious. Turkey, Water, Sodium Lactate (From Beets), Salt, Carrageenan (From Seaweed)

Applegate Sliced Pepperoni 7oz
Model: FRZ309E07
An authentic pepperoni with old-world flavor, made with today's health conscious person in mind. Our sliced pepperoni is made from antibiotic-free beef and pork, and is cured naturally, without nitrites. When put to the test, The New York Times noted that our pepperoni had the, "characteristic touch of sharpness, but without the sour note sometimes found in the traditional kind." Ingredients: Pork, Beef, Water, Salt, Spices, Dextrose, Sugar, Garlic, Lactic Acid Starter Culture (Not From Dairy).

Applegate Sliced Roast Beef 7oz
Model: FRZ312E07
We take great care in preparing our Roast Beef so it tastes like it just came out of your oven. We start with select cuts of beautifully marbled natural beef, and gently season it with salt and pepper before roasting. Our Roast Beef has no added water and is free of phosphates, so you don't lose that wonderful texture which makes this deli meat so great. Beef, Sodium Lactate (From Beets), Salt, Pepper.

Applegate Sunday Pork Bacon 8oz
Model: FRZ311E08
Declared by The New York Times to be, "...superb, filled with the flavor and aroma that makes everyone gravitate towards the kitchen," our Sunday Bacon possesses all the flavor of old fashioned country bacon without nitrites or chemical preservatives. At Applegate, we take our bacon seriously. We use select cuts of antibiotic-free pork, and season it with natural ingredients like sea salt and brown sugar. Then we smoke it for hours over applewood. Whether you're preparing an old-fashioned country breakfast or an elegant dinner salad, Sunday Bacon is a perfect choice for people as serious about taste as they are about health. Ingredients: Pork, Water, Sea Salt, Celery Juice, Evaporated Cane Juice, Lactic Acid Starter Culture (Not From Dairy).

Applegate Turkey Bacon 8oz
Model: FRZ310E08
Our Turkey Bacon is a delicious alternative to pork bacon that you can enjoy everyday. Our recipe calls for select cuts of hand-trimmed turkey thigh meat – carefully seasoned and smoked over the crackle of hardwoods. Because we use whole muscle cuts and don't use fillers or nitrites, our turkey bacon is meaty, smokey and delicious. Ingredients: Turkey, Water, Sea Salt, Celery Juice, Evaporated Cane Juice, Spices, Lactic Acid Starter Culture (Not From Dairy).

Peppered Pork Bacon 8oz
Model: FRZ307E08
Caution: this bacon is hot! Hand-rubbed with Indian Malabar pepper, this is a delicious, fiery version of our ever-popular Sunday Bacon. The rich, spicy taste is perfect for jazzing up Sunday breakfast, BLT s or your favorite bacon recipe. Just be sure to have a glass of water - or a fire extinguisher - on hand when you try it. Ingredients Pork*, Water, Sea Salt, Pepper, Evaporated Cane Juice, Celery Juice, Lactic Acid Starter Culture (Not From Dairy). *Pork used never administered antibiotics, growth promotants, or animal by-products.

The Great Organic Hot Dog 16oz
Model: FRZ304E01
Just as demand for organic grass-fed beef hits the headlines, Applegate Farms proudly introduces The Great Organic Hot Dog to everyone, everywhere, across the nation. Made from 100% organic grass-fed and finished beef, these lean hot dogs are naturally lower in fat and calories and bursting with big real old-fashioned flavor—it s a classic juicy all-American hot dog. Our hot dogs are made from 100% organic grass-fed and finished beef—it has twice the omega-3 fatty acids of corn-finished beef. And omega-3 fatty acids are the good fats that are essential for good health. The Great Organic Hot Dog weighs in at 8 grams of fat compared to the average 15 grams in most hot dogs. We use only lean quality cuts of whole muscle meat. Our animals are never administered any antibiotics or growth hormones from birth. We never use MSG, fillers, colorings, sugars or sweeteners, or by-products of any kind. Out of concern and respect for folks with allergies to wheat and dairy products, our hot dogs are gluten and casein free. Steve McDonnell, founder and owner of Applegate Farms, had a big idea. "I wanted to take America s favorite food, and create a delicious organic version. This is a hot dog that I happily feed to my children," says Steve. Ingredients Organic Grass-Fed Beef, Water, Contains Less Than 2% Of The Following: Sea Salt*, Organic Spices, Organic Garlic Powder, Organic Paprika, Celery Juice*, Organic Onion, Lactic Acid Starter Culture (Not From Milk). * There are naturally occurring nitrites in sea salt and celery juice.

Whole Wheat Tortillas 10oz

Model: FRZ210E01

Delicious when rolled around your favorite sandwich filling. Heat these briefly for the most tender texture! INGREDIENTS: organic whole wheat flour, water, organic soybean oil, sea salt, baking powder (monocalcium phosphate, sodium bicarbonate, cornstarch)

Bread - / - Spelt

Biblical Spelt Bread

Model: FRZ252E01

(Fat Free) Our version of Ezekiel 4:9 bread without common wheat...an old world bread with a whole new twist. We start by sprouting the grains...Integrity Spelt grain, lentils, soybeans, barley and millet, then we stone grind the sprouted grains into fresh flour on site at our bakery. Sprouted grains aid in the ease of digestibility. Unbelievably delicious and undeniably healthy...who says you can't have it all?

Sprouted Spelt Bread

Model: FRZ261E01

The sprouted Integrity Spelt flour used to prepare this bread significantly increases the ease of digestibility. Although it's nutritious...it's the rich nutty taste that will keep you coming back for more.

White Spelt Bread

Model: FRZ250E01

Unbleached spelt flour, made from our Integrity White Spelt grain, makes this a true favorite for everyone. Great for toasting or peanut butter and jelly sandwiches...your kids will love it!

White Spelt Burger Buns

Model: FRZ253E01

Your kids demanded white burger buns...and we aim to please! Made with our Integrity White Spelt flour...specially made for the kids, but we have a sneaking suspicion that adults are eating them too. Don't worry...your secret is safe with us!

Whole Grain Spelt Bread

Model: FRZ251E01

We got it right the first time! Our First and still our #1 selling product...made with our Integrity Spelt flour, gives this bread a slightly nutty sweet taste. One good thing really does lead to another...

Whole Spelt Burger Buns

Model: FRZ260E01

The spelt burger buns are made from our Integrity Spelt flour, stone ground on site at our bakery. Great for summertime barbeques, but don't stop there...it's great year round for sloppy Joe's and barbequed beef sandwiches...the possibilities are endless!

Whole Spelt Hotdog Buns

Model: FRZ254E01

Made from our Integrity Spelt flour, freshly stone ground on site daily. This hearty bun can handle the toppings, so pile them on!

Gerber Chicken

Breast Tenders 1 pound
Model: FRZ664E01
<p>Order by number of trays you want, the chicken is weighed when your order is packed. Each tray is about one pound. The feed makes the difference®... Gerber's chickens are fed an all vegetarian diet. The all cereal grain feed is blended with vitamins, minerals and amino acids and vegetable fats to produce a balanced nutritional feed. No Antibiotics No Growth Stimulants No Hormones No Animal By-Products No Fishmeal or Bakery By-Products No Artificial Ingredients Our chickens grow naturally when fed this special feed. The result is better tasting tender chicken guaranteed! The meat from chickens raised by our superior standards is always firm and flavorful. We get many responses from customers who refer to our chicken as being like the chicken that was grown on grandpa's farm. Our customers who know the quality and fine flavor of our chicken have proven to us that it is worth the effort to produce a better all natural chicken that really is different than the other chicken on today's market. Today's discerning consumers want products that meet high standards for quality and taste. Gerber Poultry's goal has been to produce a chicken that meets those expectations. We begin with a selected breed of chicks that we hatch at our own hatchery. The processing plant uses processes that produce wholesome clean chicken that is produced according to all USDA food safety standards. In addition, we have our own high standards of quality control that regulate our production. We carefully package our chicken in film wrapped trays. The processing areas, storage coolers and shipping trucks are always monitored for proper refrigeration temperatures to guarantee that you will get the freshest chicken, but not a frozen chicken. Des es goudt hingle The phrase that our Amish farmers say about their chickens. It means this is good chicken, and they really believe that because they know the chickens ate good all natural feed and were given special care while on their farm. Quality Assurance Because of the need for consistent results in our production processes and the governmental regulations placed on animal processing plants, comprehensive product testing is conducted regularly on samples of the Company's products. Some of the sampling is sent to outside labs for verification while the majority of testing is completed in house. The Quality Assurance measures are in place to ensure that the highest levels of quality are maintained throughout the operation.</p>

Chicken Lovers Pack
Model: FRZ802E01
<p>Order by number of trays you want, the chicken is weighed when your order is packed. Each tray is about one pound and contains 4 thighs and 2 breasts. The feed makes the difference@... The processing plant uses processes that produces wholesome clean chicken that is produced according to all USDA food safety standards. In addition, we have our own high standards of quality control that regulate our production. We carefully package our chicken in film wrapped trays. The processing areas, storage coolers and shipping trucks are always monitored for proper refrigeration temperatures to guarantee that you will get the freshest chicken, but not a frozen chicken. Des es goudt hingle The phrase that our Amish farmers say about their chickens. It means this is good chicken, and they really believe that because they know the chickens ate good all natural feed and were given special care while on their farm. Quality Assurance Because of the need for consistent results in our production processes and the governmental regulations placed on animal processing plants, comprehensive product testing is conducted regularly on samples of the Company's products. Some of the sampling is sent to outside labs for verification while the majority of testing is completed in house. The Quality Assurance measures are in place to ensure that the highest levels of quality are maintained throughout the operation.</p>

Skinless Boneless Thighs
Model: FRZ838E01
<p>Order by number of trays you want, the chicken is weighed when your order is packed. Each tray is about one pound. The feed makes the difference@... Gerber s chickens are fed an all vegetarian diet. The all cereal grain feed is blended with vitamins, minerals and amino acids and vegetable fats to produce a balanced nutritional feed. No Antibiotics No Growth Stimulants No Hormones No Animal By-Products No Fishmeal or Bakery By-Products No Artificial Ingredients Our chickens grow naturally when fed this special feed. The result is better tasting tender chicken guaranteed! The meat from chickens raised by our superior standards is always firm and flavorful. We get many responses from customers who refer to our chicken as being like the chicken that was grown on grandpa s farm. Our customers who know the quality and fine flavor of our chicken have proven to us that it is worth the effort to produce a better all natural chicken that really is different than the other chicken on today s market. Today s discerning consumers want products that meet high standards for quality and taste. Gerber Poultry s goals has been to produce a chicken that meets those expectations. We begin with a selected breed of chicks that we hatch at our own hatchery. The processing plant uses processes that produces wholesome clean chicken that is produced according to all USDA food safety standards. Tea Tree Oil 2oz
Model: HBC269E02
Tea Tree is a pure oil, culled from the leaves of a tree (Melaleuca alternifolia), native to Australia. Traditionally, it has been used as a topical agent for the skin. The Australian standards require that the oil of Melaleuca alternifolia must be composed of less than 15% cineole and over 30% terpinen-4-ol. Our tea tree is composed of less than 5% cineole and over 35% terpinen-4-ol which qualifies for Pharmaceutical Grade, as established by the Australian Tea Tree Oil Industry Association. DIRECTIONS: For Adults, apply topically to the skin. If irritation, redness or swelling occur, discontinue immediately.

Herbs & Spices

Apple Pie Spice (1 Cup)
Model: HSS103E01
Ingredients: cinnamon, nutmeg.

Apple Pie Spice 1 pound
Model: HSS104E16
Ingredients: cinnamon, nutmeg.

Bar-B-Q Seasoning (1 Cup)
Model: HSS600E01
Ingredients: dextrose, sugar, salt, paprika, tomato powder, modified food starch, spices, onion powder, garlic powder, autolyzed yeast, torula yeast, natural smoke, extractive of paprika with less than 2% silicon dioxide added to prevent caking.

Basil Leaf 1 pound
Model: HSS112E16
A leafy, green herb, belonging to the mint family, with an intense flavor that is a staple in Mediterranean cooking.

Basil Leaf (1 Cup)
Model: HSS111E01
A leafy, green herb, belonging to the mint family, with an intense flavor that is a staple in Mediterranean cooking.

Bay Leaves (1 Cup)
Model: HSS113E01
Bay Leaves provide a rich flavoring to many vegetable dishes, meat dishes, soups, and stews with only one or two necessary for many recipes due to their potent flavor. Typically, Bay Leaves are removed before the dish is served however, when added to marinades or food rubs, the leaves are crumbled into fine pieces and not removed before serving. If too many leaves or crumbled pieces are added, the food will have a bitter or sour flavor instead of an even herb-flavored taste.

Bay Leaves 1 pound
Model: HSS114E16
Bay Leaves provide a rich flavoring to many vegetable dishes, meat dishes, soups, and stews with only one or two necessary for many recipes due to their potent flavor. Typically, Bay Leaves are removed before the dish is served however, when added to marinades or food rubs, the leaves are crumbled into fine pieces and not removed before serving. If too many leaves or crumbled pieces are added, the food will have a bitter or sour flavor instead of an even herb-flavored taste.

Black Peppercorns (1 Cup)
Model: HSS179E01
One of the most common and most popular of spices, the peppercorn is derived from the berries grown in clusters on the vine-like pepper plant. Round in shape, the berry (peppercorn) of the pepper plant begins as a green berry and then matures from yellowish tan to red and finally black in color.

Black Peppercorns 1 pound
Model: HSS179E16
One of the most common and most popular of spices, the peppercorn is derived from the berries grown in clusters on the vine-like pepper plant. Round in shape, the berry (peppercorn) of the pepper plant begins as a green berry and then matures from yellowish tan to red and finally black in color.

Caraway Seed 1 pound
Model: HSS117E16
A plant of the parsley family from which small, curved, brown colored seeds are obtained and used as a seasoning for savory dishes and many baked items.

Caraway Seed (1 Cup)
Model: HSS116E01
A plant of the parsley family from which small, curved, brown colored seeds are obtained and used as a seasoning for savory dishes and many baked items.

Cayenne Pepper (1 Cup)
Model: HSS119E01
Has a very hot, biting flavor and a little goes a long way when seasoning dishes.

Cayenne Pepper 1 pound
Model: HSS120E16
Has a very hot, biting flavor and a little goes a long way when seasoning dishes.

Celery Salt (1 Cup)
Model: HSS623E01
Celery salt is used as an alternate to ordinary salt seasoning in various recipes and cocktails. It is notably used to enhance the flavor of Bloody Mary cocktails, the Chicago-style hot dog, and Old Bay Seasoning.

Chicken Rub (1 Cup)
Model: HSS604E01
Mixing Instructions: Mix 1/4 cup seasoning with 4 tbsp of oil. Add 2 tbsp lemon juice or vinegar. Brush entire mixture on chicken. Grill, bake, or broil. For best result refrigerate chicken in mixture for 2-6 hours. List of Ingredients: salt, ground and whole herbs and spices to include paprika, annatto seed and turmeric, dehydrated garlic, citric acid, soybean oil. Not more than 2% calcium stearate added as an anti-caking agent.

Chicken Rub 1 pound
Model: HSS605E16
Mixing Instructions: Mix 1/4 cup seasoning with 4 tbsp of oil. Add 2 tbsp lemon juice or vinegar. Brush entire mixture on chicken. Grill, bake, or broil. For best result refrigerate chicken in mixture for 2-6 hours. List of Ingredients: salt, ground and whole herbs and spices to include paprika, annatto seed and turmeric, dehydrated garlic, citric acid, soybean oil. Not more than 2% calcium stearate added as an anti-caking agent.

Chili Powder (1 Cup)
Model: HSS123E01
Ingredients: chili, cumin, oregano, spices and salt.

Chili Powder 1 pound
Model: HSS123E16
Ingredients: chili, cumin, oregano, spices and salt.

Chives (1 Cup)
Model: HSS125E01
A herb characterized by its long green shoots that are used as a seasoning in food dishes to provide a flavor very similar to an onion.

Chives 1 pound
Model: HSS125E16
A herb characterized by its long green shoots that are used as a seasoning in food dishes to provide a flavor very similar to an onion.

Cilantro (1 Cup)
Model: HSS624E01
The green leaves of the coriander plant, which resemble a parsley-like green. Cilantro has a sharp distinctive flavor and is very popular in Mexican and Asian food dishes. It is so popular in China that it is often referred to as Chinese parsley.

Cinnamon Sticks (1pkt)
Model: HSS130E01
A sweet spice which is slightly hot and is derived from the inner bark of an East Indian evergreen tree of the laurel family. The inner bark is removed and when it is laid out, it curls into long sticks. The sticks are cut and sold as is or the bark can be ground into a fine powder. Cinnamon is commonly used in many parts of the world, but it is especially popular in Middle Eastern cuisine. It is used in sweet as well as savory dishes.

Cinnamon Sticks 1 pound
Model: HSS131E16
A sweet spice which is slightly hot and is derived from the inner bark of an East Indian evergreen tree of the laurel family. The inner bark is removed and when it is laid out, it curls into long sticks. The sticks are cut and sold as is or the bark can be ground into a fine powder. Cinnamon is commonly used in many parts of the world, but it is especially popular in Middle Eastern cuisine. It is used in sweet as well as savory dishes.

Curry (1 Cup)
Model: HSS139E01
Ingredients: ground coriander, turmeric, ground red pepper, fennel, black pepper, garlic powder, ginger, cumin, cloves and cinnamon.

Curry 1 pound
Model: HSS140E16
Ingredients: ground coriander, turmeric, ground red pepper, fennel, black pepper, garlic powder, ginger, cumin, cloves and cinnamon.

Dill Weed (1 Cup)
Model: HSS141E01
An herb belonging to the parsley family with fine, feathery leaves. Dill is used in many dishes, but it works especially well with fish recipes.

Dill Weed 1 pound
Model: HSS142E16
An herb belonging to the parsley family with fine, feathery leaves. Dill is used in many dishes, but it works especially well with fish recipes.

Frontier Meatless Beef Broth Powder 16oz
Model: HSS500E16
Ingredients: Corn syrup solids, dehydrated onion, salt, autolyzed yeast extract (autolyzed yeast extract, sunflower oil), dehydrated garlic and celery seed.Directions: Add two rounded teaspoons broth powder to one cup hot water. Simmer 1 to 2 minutes and serve.

Frontier Meatless Chicken Broth Powder 16oz
Model: HSS501E16
Ingredients: Corn syrup solids, salt, vegetarian chicken flavor (contains soybean derivatives), dehydrated onion, autolyzed yeast extract, dehydrated garlic, celery seed, turmeric and parsley.Directions: Add four teaspoons broth powder to one cup hot water. Simmer 1 to 2 minutes and serve.

Frontier No Salt Chili Powder 1 pound
Model: HSS124E16
Ingredients: chili peppers (contains silicon dioxide as anticaking agent) cumin, dehydrated garlic, oregano. Non-Irradiated

Frontier Vegetable Broth Powder 16oz
Model: HSS502E16
Ingredients: Corn syrup solids, tomato, salt, dehydrated onion, dehydrated garlic, autolyzed yeast extract, carrot, basil, celery seed, kelp, parsley, spinach, turmeric and bay.Directions: Add two tablespoons of broth powder to 8 oz. boiling water. Simmer 1 to 2 minutes and serve.

Garlic Salt (1 cup)
Model: HSS149E01
A seasoned salt that is a combination of 1 part garlic powder and 3 parts salt that may have a moisture-absorbing agent added. It is commonly used as a flavoring to make garlic butter, to season garlic toast and to flavor other foods when a blend of salt and garlic are desired. Garlic salt is also considered to be a way to absorb moisture in a food dish.

Garlic Salt 1 pound
Model: HSS150E16
A seasoned salt that is a combination of 1 part garlic powder and 3 parts salt that may have a moisture-absorbing agent added. It is commonly used as a flavoring to make garlic butter, to season garlic toast and to flavor other foods when a blend of salt and garlic are desired. Garlic salt is also considered to be a way to absorb moisture in a food dish.

Granulated Garlic 1 pound
Model: HSS148E16
A dried form of garlic that has been ground into granules rather than powder. Granulated garlic can be used much the same as garlic powder, but has about half the flavoring power as the same measure of garlic powder and like powder, the granules lack in providing the garlic texture of a fresh garlic. 1 teaspoon of granulated garlic equals 1/2 teaspoon of garlic powder.

Granulated Garlic (1 Cup)
Model: HSS147E01
A dried form of garlic that has been ground into granules rather than powder. Granulated garlic can be used much the same as garlic powder, but has about half the flavoring power as the same measure of garlic powder and like powder, the granules lack in providing the garlic texture of a fresh garlic. 1 teaspoon of granulated garlic equals 1/2 teaspoon of garlic powder.
Ground Black Pepper (1 Cup)
Model: HSS180E01
Black pepper can be used as a topping for salads or side dishes such as vegetables, while also being served on pasta, meats and poultry.
Ground Black Pepper 1 pound
Model: HSS181E16
Black pepper can be used as a topping for salads or side dishes such as vegetables, while also being served on pasta, meats and poultry.
Ground Cinnamon (1 Cup)
Model: HSS126E01
A sweet spice which is slightly hot and is derived from the inner bark of an East Indian evergreen tree of the laurel family. The inner bark is removed and when it is laid out, it curls into long sticks. The sticks are cut and sold as is or the bark can be ground into a fine powder. Cinnamon is commonly used in many parts of the world, but it is especially popular in Middle Eastern cuisine. It is used in sweet as well as savory dishes.
Ground Cinnamon 1 pound
Model: HSS127E16
A sweet spice which is slightly hot and is derived from the inner bark of an East Indian evergreen tree of the laurel family. The inner bark is removed and when it is laid out, it curls into long sticks. The sticks are cut and sold as is or the bark can be ground into a fine powder. Cinnamon is commonly used in many parts of the world, but it is especially popular in Middle Eastern cuisine. It is used in sweet as well as savory dishes.
Ground Cloves (1 Cup)
Model: HSS132E01
Strong in flavor, this spice provides a sweet and somewhat spicy or peppery taste as a seasoning, so it is wise not to use it in excess or it will overpower the food being seasoned.
Ground Cloves 1 pound
Model: HSS133E16
Strong in flavor, this spice provides a sweet and somewhat spicy or peppery taste as a seasoning, so it is wise not to use it in excess or it will overpower the food being seasoned.
Ground Coriander (1 Cup)
Model: HSS135E01
The coriander seeds, which can be used whole or ground into a powdered form, are very popular in Indian and Middle Eastern dishes, providing a sweet and somewhat fruity flavor.

Ground Coriander 1 pound
Model: HSS136E16
The coriander seeds, which can be used whole or ground into a powdered form, are very popular in Indian and Middle Eastern dishes, providing a sweet and somewhat fruity flavor.

Ground Cumin (1 Cup)
Model: HSS137E01
Cumin has a strong, distinct, somewhat bitter flavor, and is used to season meats, pickles, soups, stews, rice, potatoes, and curry.

Ground Cumin 1 pound
Model: HSS138E16
Cumin has a strong, distinct, somewhat bitter flavor, and is used to season meats, pickles, soups, stews, rice, potatoes, and curry.

Ground Ginger (1 Cup)
Model: HSS151E01
The dried powdered form of ginger is popular in Europe and the United States as a flavoring for salad dressings, baked sweets, soups, curries, meats, and desserts, such as gingerbread and gingersnaps. Ground ginger works well for flavoring a variety of foods, however it should not be substituted for fresh ginger in recipes. It has a flavor that enhances and goes well with cinnamon or nutmeg seasonings.

Ground Ginger 1 pound
Model: HSS152E16
The dried powdered form of ginger is popular in Europe and the United States as a flavoring for salad dressings, baked sweets, soups, curries, meats, and desserts, such as gingerbread and gingersnaps. Ground ginger works well for flavoring a variety of foods, however it should not be substituted for fresh ginger in recipes. It has a flavor that enhances and goes well with cinnamon or nutmeg seasonings.

Ground Nutmeg (1 Cup)
Model: HSS160E01
A spice, native to the Spice Islands, that is used to add a sweet and savory flavor to a variety of foods. It is made from the seed inside the hard pit of the peach-like fruit grown on the nutmeg tree.

Ground Nutmeg 1 pound
Model: HSS161E16
A spice, native to the Spice Islands, that is used to add a sweet and savory flavor to a variety of foods. It is made from the seed inside the hard pit of the peach-like fruit grown on the nutmeg tree.

Ground Rosemary (1 Cup)
Model: HSS614E01
Rosemary is very aromatic and its flavor has hints of lemon and pine. This herb is used in many foods, such as salads, soups, vegetables, meat, fish, eggs and stuffing and is also used to scent cosmetics.

Ground Sage (1 Cup)
Model: HSS188E01
An herb that originated in the Mediterranean region but is now widely cultivated. It is an evergreen plant that has velvety leaves and is grown in many varieties. It has a strong, spicy and aromatic flavor.

Ground Sage 1 pound
Model: HSS189E16
An herb that originated in the Mediterranean region but is now widely cultivated. It is an evergreen plant that has velvety leaves and is grown in many varieties. It has a strong, spicy and aromatic flavor.

Ground Turmeric (1 Cup)
Model: HSS201E01
A spice derived from the root of a tropical plant that is related to ginger. It has a sharp, bitter flavor and a bright yellow-orange color. Turmeric adds flavor to food but is more often used for the purpose of adding color, for example, it is what gives prepared mustard its yellow coloring.

Ground Yellow Mustard (1 Cup)
Model: HSS158E01
Ground mustard is used as a seasoning to make prepared mustard, mustard sauces and flavorings for food dishes.

Ground Yellow Mustard 1 pound
Model: HSS159E16
Ground mustard is used as a seasoning to make prepared mustard, mustard sauces and flavorings for food dishes.

Guar Gum 8oz
Model: HSS592E08
A food additive that is most often used as a thickener or stabilizer. This ingredient is produced from legume plants in arid areas of India, Pakistan and the U.S. The plant grows clusters of bean pods with seeds from which endosperm is extracted to be processed into guar gum. It is an ingredient that can replace the gluten in gluten free flours to assist with the rising of the dough. Similar to xanthan gum, it can be used to bind water to keep it contained in pasty fillings so it does not soften crusts, it can be used as a thickener for sauces and dressings, or it can be used in ice cream to eliminate the formation of ice crystals.

Italian Seasoning (1 Cup)
Model: HSS155E01
Ingredients: rosemary, savory, basil, marjoram and assorted spices.

Italian Seasoning 1 pound
Model: HSS156E16
Ingredients: rosemary, savory, basil, marjoram and assorted spices.

Lemon Citrus Peel (1 Cup)
Model: HSS168E01
Dehydrated lemon peel

Lemon Pepper (1 Cup)
Model: HSS162E01
A seasoning that contains pepper, lemon peel granules, salt, sugar and other spices. It gives lemon and pepper flavoring to the food on which it is applied. It is used to season many things, such as meat, poultry, fish, casseroles, soups, gravies, eggs, vegetables, dressings and dips.

Mexican Rice Seasoning .6oz
Model: HSS222E01
Ingredients: dehydrated onion and garlic, salt, spices (including paprika), extractives of paprika. The latest creations from our kitchen complement Mexican-style cooking naturally! Each packet of taco, guacamole, chili, and Mexican rice seasoning contains natural herbs and spices, the perfect blend of seasonings to turn simple ingredients into delicious foods quickly! Hint: stir in sliced olives, chopped green onions or diced green chilies for a delicious difference. To make rice and beans: add 1 (15 oz) can of organic beans (black, pinto, red kidney or chili beans), drained, to step. Cook as directed.
Minced Onion (1 Cup)
Model: HSS163E01
Dehydrated onions
Minced Onion 1 pound
Model: HSS164E16
Dehydrated onions
Mint Leaves (1 Cup)
Model: HSS157E01
A cool refreshing herb, available in many varieties, that is used to flavor desserts, teas and meat dishes, especially lamb.
Mint Leaves 1 pound
Model: HSS157E16
A cool refreshing herb, available in many varieties, that is used to flavor desserts, teas and meat dishes, especially lamb.
Montana Steak Seasoning 1 pound

Whole Fenugreek (1 Cup)
Model: HSS145E01
A spice that is native to western areas of Asia and commonly used in cooking foods from Asia and India.

Whole Fenugreek 1 pound
Model: HSS146E16
A spice that is native to western areas of Asia and commonly used in cooking foods from Asia and India.

Whole Nutmeg (1 Cup)
Model: HSS165E01
A spice, native to the Spice Islands, that is used to add a sweet and savory flavor to a variety of foods. It is made from the seed inside the hard pit of the peach-like fruit grown on the nutmeg tree.

Whole Nutmeg 1 pound
Model: HSS165E16
A spice, native to the Spice Islands, that is used to add a sweet and savory flavor to a variety of foods. It is made from the seed inside the hard pit of the peach-like fruit grown on the nutmeg tree.

Whole Savory (1 Cup)
Model: HSS190E01
This herb provides a strong aroma and a spicy, peppery flavor similar to oregano or thyme, making it a good seasoning for foods, such as vegetables, beans, peas, poultry, sausage, and fish however, it is not a common herb used for meat.

Xanthan Gum (1 Cup)
Model: HSS590E01
An ingredient added to various food products, such as ice cream, snack bars, sour cream, yogurt, or salad dressing as a thickening, stabilizing and emulsifying agent. Produced from the fermentation of a carbohydrate, such as corn, xanthan gum is purified, processed, and most often ground into a powder form for use as a food additive. It has various attributes that assist with numerous food products, such as making items easily soluble, creating creamy textures, providing body and stability to food substances, and binding water. It can be used as a substitute for gluten in gluten free flours to assist with the rising of the dough. As an example of its use in binding it keeps water and oil blended when they are combined. When added to sweet fillings, it assists with keeping the water in the filling placed into pasteries so the water does not adversely affect and soften the crusts. Xanthan gum can be mixed with other thickeners such as guar gum or locust bean gum to increase the viscosity of foods more than can be accomplished by using only one of the thickeners.

Xanthan Gum 1 pound

Household

Bi-O-Kleen Produce Wash 16oz

Model: HHP172E16

Up to 3 times more concentrated! Bi-O-Kleen s Produce Wash with Grapefruit Seed Extract, is a safe, natural, effective cleaner that helps remove soil, waxes, pesticides, herbicides, fungicides, and other unhealthy pollutants from your fruits, vegetables, and poultry. Even when eating organic fruits and vegetables, contaminates through handling, storage, and shipping can still be an issue, and should always be washed. Bi-O-Kleen s Produce Wash also keeps your food preparation, storage, and equipment more sanitary by removing and rinsing away contaminants. So concentrated that just a few drops go a long way, and is much more effective than the watered down versions on the market today. With no left over residue or aftertaste, by using Bi-O-Kleen s Produce Wash, you can eat safer, healthier, and with more peace of mind. (16 oz.)

Baby Blossom Hand Lotion 16oz
Model: HHP462E01
Usage: Simply use a dollop or two to soften and moisturize your hands. Ingredients: Deionized Water, Caprylic/Capric Triglyceride, C12-C15 Alkyl Benzoate, Hydrogenated Polyisobutene, Glyceryl Stearate, Olive (Olea Europaea) Oil, Cetearyl Alcohol, Glycerin, Cetareth-20, Aloe Barbadensis Leaf Juice, Dimethicone, Soybean (Glycine Soja) Oil, Sunflower (Helianthus Annuus) Oil, Orange (Citrus Aurantium Dulcis) Oil, Geranium (Geranium Maculatum) Oil, Fragrance* Polyacrylamide, Myristyl Myristate, C13-14 Isoparaffin, Cetyl Alcohol, Laureth-7, Propylene Glycol, Diazolidinyl Urea, Methylparaben, Propylparaben. Common Questions: Can I use this product on my entire body? Yes, absolutely. You can use this pure and gentle product on your entire body as well as your baby's.

Baby Blossom Laundry Detergent 64oz
Model: HHP465E01
Babies sure mean doing a lot of laundry! Their sensitive skin needs an extra gentle detergent and Mrs. Meyer's Baby Blossom Laundry Detergent's special formulation is just the ticket. It's dermatologist tested to be safe for baby. Concentrated, effective and HE compatible. Usage: Use one capful of detergent per load (32 loads per bottle), or 1 1/2 capful for extra-large or particularly messy clothes. If you have a spot, dab Laundry detergent directly onto the spot and let sit for a minute or two. Wash as usual. Ingredients: Deionized Water, Plant Derived Surfactants, Cotton Extract, Borax, Solubilizing Agents, Organic Essential Oils of Orange and Lemon, Natural Honeysuckle, Fragrance, Preservative. Common Questions: Can this product be used in high-efficiency (HE) washing machines? Yes, this product is formulated for HE machines. Can this laundry detergent be used at all temperatures? Our laundry detergent is safe and effective at all temperatures on whites, permanent press, bright colors, prints, and delicates in hard or soft water. Does this laundry detergent contain phosphates or bleach? Our laundry detergent contains no phosphates and is biodegradable. This product contains no bleach. How much laundry detergent should I use? We recommend 1 capful (2 oz) per load or 1 1/2 capfuls (3 oz) for very heavily soiled loads. Can I use this product on silk or wool? Our Laundry Detergent is not recommended for silk or wool unless noted washable by the manufacturer. Will the use of this product shrink or fade my clothes and delicates? We recommend carefully following the manufacturer's directions when washing delicates. Always test an inconspicuous area or a seam before using our product on delicates. This product will not shrink or fade clothes when they are washed at the temperature suggested by the manufacturer.

Baby Blossom Liquid Hand Soap 16oz
Model: HHP461E01
Usage: Moisten your hands, then add soap. The longer you rub your hands, the cleaner they become. Baby Blossom Stain Remover
Model: HHP466E01
<p>Sometimes you need a little help to get out tough, icky stains. Mrs. Meyer s Baby Blossom Stain Remover is easy to use and contains enzymes for removal of the wide variety of baby stains. Contains non-ionic surfactants from plant-derived sources and other solubilizing agents that work to lift those nasty stains. Essential oils provide that refreshing fragrance we love so much. Usage Apply our Stain Remover when the stain is still fresh and new. If it s a really stubborn stain, re-apply our Stain Remover before the garment is dry, then wash again as directed. It s so easy! Don t forget to always test for colorfastness on an inside seam. Ingredients• Plant-Derived Surfactants• Cotton Extract• Solubilizing Agents• Organic Essential Oils of Orange and Lemon• Natural Honeysuckle• Fragrance&nbsp;</p>

Baby Blossom Surface Spray 16oz
Model: HHP460E01
<p>UsageA naturally fresh way to keep baby s things and play area clean and free of odors. Great on all non-porous, finished surfaces like your baby s wooden highchair and alphabet blocks. Use it indoors and out for your toddler s toys and even their trike. Just spray on, wipe off and go play! So simple. IngredientsDeionized WaterPlant-Derived SurfactantsBaking SodaOrganic Essential Oils of Orange and LemonNatural HoneysuckleFragrancePreservativeVegetable Protein ExtractCommon QuestionsCan you use the Surface Spray on wood floors? Yes, you can use the Surface Spray on wood floors - as long as they are sealed with varnish, shellac or polyurethane. We do not recommend using our product on wood floors that are polished or buffed with a paste wax. Can I use the Surface Spray to clean Marble and Granite? Make sure your granite and marble are sealed before you clean these surfaces. To find out, put a drop of water on the surface. If it beads up, it is sealed, and you can proceed as directed. If you do encounter a stain in Marble, call our office, as we do have a poultice recipe to help you remove the stain. Can I use this product on glass and windows? You may experience streaking when using this product on glass and windows.What does the vegetable protein extract do and what vegetables is it made from? The vegetable protein extract naturally neutralizes odors. It is made via an enzymatic fermentation process with non-wheat ingredients.</p>

Mrs Meyers - / - Lemon Verbena

Mrs Meyer s Lemon Verbena Automatic Dishwashing Liquid 48oz
Model: HHP408E48
Let your dishwasher create sparkling dishes, glasses and flatware with our phosphate-free, biodegradable Automatic Dishwashing Liquid. When you open the machine door and unload, our unique fragrance will fill your kitchen with freshness. Usage Shake the bottle a bit, then fill your machine s soap cups as usual. Load the dishes and start it up. Ingredients Deionized Water , Xanthan Gum , Chelating Agent (non-EDTA) , Minerals , Essential Oils of Lemon, Lemongrass, Peppermint, Clove, Geranium, and Fir Needle , Fragrance , Non-Ionic Surfactant , Potassium Hydroxide Common Questions Can this product be used to wash dishes by hand in the sink? No, we do not recommend this usage for the product, the pH is high and could be quite drying on skin. Does this product require the use of a rinse aid? No, a rinse aid is not required when using this product. Why do I still have tea and coffee stains in my cups when I use this product? We do not use bleach in our product for environmental reasons, and bleach does the best job of cleaning tea and coffee stains from ceramic wear.

Mrs Meyer s Lemon Verbena Hand Soap Refill 64 oz
Model: HHP406E64
Mrs. Meyer s Lemon Verbena Hand Soap Liquid Refill is less expensive for you, and better for the environment. Simply pour it into your small Liquid Hand Soap bottle, so quick and easy. Natural Flour

Bobs Tapioca Flour 22oz
 Model: FLN112E22
 Tapioca Flour is a grain-free flour derived from cassava root. It is a starchy, slightly sweet, white flour. Use about 1/4 to 1/2 cup per recipe to sweeten breads made with rice and millet flour. It's excellent in pie fillings.

King Arthur Special Flour
 Model: FLN156E05
 Enriched. Naturally pure and wholesome. Never bleached. Never bromated.INGREDIENTS: wheat flour enriched (niacin, reduced iron, thiamine mononitrate, riboflavin, folic acid), malted barley flour.

Natural Buckwheat Flour
 Model: FLN125E01
 A variety of gluten free flour obtained by grinding the seeds of the buckwheat plant. Buckwheat flour has a slightly sour flavor and it is often processed with the addition of wheat flour in order to temper the taste. Buckwheat flour is often used in pancakes, waffles, blintzes, crepes, muffins, and soba noodles. Because it contains no gluten, buckwheat flour must be added to wheat flour for use in yeast breads. About 20% of the total quantity of flour used for yeast breads may consist of buckwheat flour with the remainder consisting of wheat flour. Even when using this small quantity in yeast breads, buckwheat flour provides a distinctive flavor to the loaf.Buckwheat flour is a rich source of the amino acid, lysine and it contains high levels of protein, calcium, magnesium, phosphorous, B vitamins, and iron. It is an excellent wheat substitute for people who are allergic to gluten (celiac disease).Buckwheat flour should be stored in an airtight container in the refrigerator where it will keep for 2 months. It can be stored in the freezer for a half year.

Natural Buckwheat Pancake Mix
 Model: FLN400E05
 Ingredients: Stoneground Old Fashion Buckwheat Flour, Wheat Flour, Corn Flour, Corn Dextrose, Sweet Buttermilk, Bicarbonate Of Soda, Sodium Aluminum Phosphate, Calcium Phosphate, Salt.Directions: 3/4 Cup Water1 Cup MixMix Until Batter Is Smooth (Do Not Overmix). Pour Batter Onto Heated Griddle (375 F).When Top Of Pancake Is Bubbly, Turn Over. Heat Until Done.

Natural Buttermilk Biscuit Mix
 Model: FLN410E05
 Buttermilk Biscuit MixDirections: 3 Cups Mix 3/4 Cup WaterStir With A Large Spoon Until Smooth. Place Dough On Floured Surface & Roll Out To 1/2 Thickness. Cut With 2 Biscuit Cutter & Place On Baking Sheet. Bake At 400 F For 12-15 Min Or Until Golden Brown.Yield: 12 1-3/4oz BiscuitsIngredients:Enriched Wheat Flour Bleached (Flour, Niacin, Reduced Iron, Thiamine Mononitrate, Riboflavin) Vegetable Shortening (Soybean And Or Cottonseed Oil) Partially Hydrogenated, Dry Buttermilk, Leavening (Sodium Aluminum Phosphate, Baking Soda) Salt, Dextrose, Dry Egg Yolk, Mono& Diglycerides With BHT And Citric Acid As Preservatives Sodium Propionate As Preservative Natural & Artificial Flavors.

Natural Deluxe Pancake Mix
Model: FLN401E05
INSTRUCTIONS:3 cups mix 1 1/2 cups waterCombine mix and water. Blend with large fork. Pour on griddle. When top starts to bubble all over, flip cakes and bake till done. 15 pancakes.Ingredients:Enriched wheat flour bleached (flour, niacin, reduced iron, thiamine mononitrate, riboflavin) corn flour, sugar, dry buttermilk, dextrose, leavening (monocalcium phosphate, baking soda) soybean oil, dry whole egg, salt, artificial flavor.

Natural Oat Flour
Model: FLN136E05
A flour ground from oat groats, which are hulled and cleaned oats. Oat flour is also ground from rolled oats or oatmeal. Oat flour adds texture and a rich nutlike flavor to breads and other baked goods. Using oat flour results in baked items that are moist and more crumbly and they retain their freshness longer than items baked with wheat flour. Since oat flour is gluten free (although there is some debate about this), it must be combined with wheat flour to produce leavened bread. For the best results, use 3 cups wheat flour for every 1 cup of oat flour.For extended storage, oat flour should be placed in an airtight container in the freezer where it will keep for several months.

Natural Potato Flour 24oz
Model: FLN200E01
A type of flour produced from cooked, dried, and ground potatoes. It is used as an ingredient in potato based recipes to enhance the potato flavor and is often mixed with other types of flour for baking breads and rolls. It is also used as a thickener for soups, gravies, and sauces. Potato flour is often confused with potato starch, but potato flour is produced from the entire dehydrated potato whereas potato starch is produced from the starch only.

Natural Prairie Gold Bread Flour
Model: FLN140E05
Literally thousands of bakers have told us that they wouldn't use anything else. This flour, ground from our Prairie Gold wheat, will delight you, your family and your customers in every way.

Natural Semolina Flour
Model: FLN190E05
A granular flour with a light yellow color. Semolina is produced from durum wheat, which is used almost exclusively for making pasta. Durum wheat has the ideal properties for making the best pasta. It is high in protein and gluten, which are necessary components for pasta making.

Natural Soy Flour
Model: FLN182E05
A high protein, gluten-free flour ground from roasted soybeans. Soy flour is high in protein and it can be added to wheat flour when making baked goods to boost the protein level of some products. It contains no gluten, so it cannot replace wheat flour entirely in baked goods. It is best to substitute no more than 25% to 30% of the total volume of wheat flour with soy flour to ensure the best results when baking.

Natural Vital Wheat Gluten
Model: FLN110E01
Gluten, Vital Wheat is the natural protein found in wheat. It contains 75% protein. A small amount added to yeast bread recipes improves the texture and elasticity of the dough. This is often used by commercial bakeries to produce light textured breads, and can easily put the home bread baker on a par with the professionals. Vital Wheat Gluten can also be used to make a meat substitute known as seitan.

Natural Grains

7 Grain Mix Rolled & Flaked
Model: GRN197E05
This unique blend of 7 whole grains covers all of the bases. Protein, vitamins, fiber and flavor. INGREDIENTS: Made from a hearty combination of hard wheat, soft wheat, triticale, rye, oats, pearled barley and spelt.

Barley Flakes
Model: GRN196E05
The barley grain is steamed, rolled, and dried. Use to make hot cereal or granola

Bronze Chief Wheat 25 pound
Model: GRN320E25
High Protein Hard Red Spring Wheat. This is the wheat that founded our business. Naturally air dried, plump kernels, low moisture, and excellent baking quality. For superior whole wheat baking. Chemical Free. GMO Free.

Bronze Chief Wheat 50 pound
Model: GRN320E50
High Protein Hard Red Spring Wheat. This is the wheat that founded our business. Naturally air dried, plump kernels, low moisture, and excellent baking quality. For superior whole wheat baking. Chemical Free. GMO Free.

Bulghur
Model: GRN113E05
Refers to soft wheat that has been parboiled, dried, and cracked. When bulgur is cooked, it has chewy texture and a delicious nutty flavor. Some recipes call for bulgur that only needs to be soaked in order to tenderize it. Bulgur is a traditional ingredient in Middle Eastern cooking and can be used in salads, soups, stews, casseroles, or stuffings and can also be added as an extender to some meat products, such as hamburgers. Also known as bulghur.

Country Wild Rice Blend 1 pound
Model: GRN160E01
Want rice that is rich and tasty for your next meal? Put Countrywild® on the table. This outstanding blend of Wehani®, long grain brown rice and Black Japonica™ has plenty of fragrance, color and flavor with an attractive separateness of grain. Cooking Instructions 1 cup Lundberg Countrywild® 2 cups water or bouillon 1 tbsp butter or margarine Salt to taste Rinse rice. Put all ingredients in pot with tight-fitting lid. Bring to boil, reduce heat, cover and simmer 45 minutes. Do not remove lid. Remove from heat and allow to sit covered for 10 minutes. Serves 4 to 6. A rice cooker may be used with the same rice-to-water ratio.

Fancy Wild Rice
Model: GRN165E01
<p>A grain-like plant that is not actually a type of rice, but an aquatic grass bearing edible seeds that grows wild in marshy areas of lakes and rivers. Wild rice is native to the northern waters of Minnesota, parts of Wisconsin, and adjacent areas of Canada. For the Native Americans of the area, wild rice is known as “Mahnomen” (or manomin) meaning, “good berry”. True lake rice is hand harvested, making it quite expensive. Cultivated wild rice is less expensive, but it is grown in controlled paddies, most of which are located in California and Minnesota. Only about one-tenth of the wild rice harvested in Minnesota is true hand-harvested lake rice. Wild rice grains harvested from the lakes of Minnesota are of varying lengths and colors and usually vary from one body of water to another. The grains of lake rice are much longer than actual long-grain rice varieties, averaging ½ to ¾ inch in length. The color may range from varying shades of yellow, tan, brown, to almost black. The grains of Canadian wild rice tend to be longer and are often referred to as jumbo Canadian wild rice. Some grains of Canadian wild rice may reach a length of one inch or longer. Cultivated wild rice (the type most commonly found in food stores) is less expensive, but it is grown in controlled paddies and is more consistent in length and color. After harvesting, the drying process darkens the color of lake rice. Cultivated wild rice may become nearly black in appearance after drying. Wild rice has a very pleasing chewy texture and a distinctive nutty flavor. The flavor of lake rice can vary from one lake to another and sometimes from one area to another in the same lake. More than half of the wild rice that is consumed is blended with other types of rice that are less expensive, however wild rice has such a distinctive flavor that a small quantity is sufficient to provide adequate flavor to the rice blend. A side dish of wild rice is a tasty alternative to potatoes or rice. Wild rice is often used as an ingredient for soups and casseroles and a small quantity added to steamed vegetables makes an excellent side dish. It adds flavor to tossed salads and it is one of the best accompaniments for poultry and fish. Wild rice usually requires more time to cook than regular rice. Although wild rice may be expensive, it expands to 3 or 4 times its original size when it is cooked, so one pound of wild rice is enough to provide up to 35 servings. When stored in an airtight container, wild rice will keep almost indefinitely. It is also one of the most nutritious grain-like foods.</p>

Natural Black Japonica Rice Blend 1 pound
Model: GRN161E16
<p>Juicy with a nutty, mushroom-like flavor energized with an exotic sweet spiciness, brought to you exclusively from Lundberg Family Farms. A good-looking whole grain brown rice blend of short grain black rice and medium grain mahogany rice originates from Japanese seeds.</p> <p>Cooking Instructions 1 cup Lundberg Black Japonica 2 cups water or bouillon 1 tbsp butter or margarine Salt to taste Rinse rice. Put all ingredients in pot with tight-fitting lid. Bring to boil, reduce heat, cover and simmer 45 minutes. Do not remove lid. Remove from heat and allow to sit covered for 10 minutes. Serves 4 to 6. A rice cooker may be used with the same rice-to-water ratio.</p>

Natural Brown Basmati Rice
Model: GRN140E05
<p>A long-grain rice that is approximately four times longer than it is wide. Basmati is one of the most popular long-grain rice varieties due to its texture, nutty flavor, and popcorn-like aroma. Much of the basmati rice is cultivated in India and Pakistan. The rice is fluffy and dry and the grains do not stick together after it is cooked. Steaming, boiling, and baking are excellent preparation methods for basmati rice, which can be used in pilafs, salads, and a variety of cooked dishes. Basmati rice combines well with sauces and curries.</p>

Natural Jubilee Brown Rice Blend
Model: GRN162E16
Pretty and understated, Jubilee® balances a subtle aroma, restrained sweetness and mellow flavors. Add a touch of sophistication to your meal with this festive and colorful blend of Wehani, Black Japonica, short and medium grain red rice, short and long grain brown rice and sweet brown rice. Cooking Instructions 1 cup Lundberg Jubilee 2 cups water or bouillon 1 tbsp butter or margarine Salt to taste Rinse rice. Put all ingredients in pot with tight-fitting lid. Bring to boil, reduce heat, cover and simmer 45 minutes. Do not remove lid. Remove from heat and allow to sit covered for 10 minutes. Serves 4 to 6. A rice cooker may be used with the same rice-to-water ratio.

Natural Long Grain Brown Rice
Model: GRN152E05
Rice kernels that have been processed to remove the outer hulls, but not the nutritious bran layers covering the kernel. This gives the rice its brown color and nutty flavor. Long with a length that is four to five times its width. The rice is fluffy and dry when cooked and because of its low starch content, the rice separates easily without excessive stickiness. Rice can be steamed or baked and is used in salads, main dishes or casseroles, and side dishes of rice.

Natural Quick Rolled Oats
Model: GRN191E05
Old fashioned oats that are cut into several pieces and then steamed and rolled into thin flakes. Because the flakes are thin and small, they cook up very quickly, requiring about 5 minutes cooking time compared to the 15 minutes need for regular oats. The quick oats lose a little flavor but keep their nutritional value.

Natural Regular Rolled Oats
Model: GRN190E05
Whole oat kernels, referred to as groats, which have been sliced and flattened into flakes by steel rollers. They are also referred to as old-fashioned oats. Rolled oats, which are steamed and then flattened, are eaten as a hot cereal, eaten cold as in muesli, and are used in baked goods, such as cookies, breads and bars.

Natural Soft Wheat
Model: GRN400E25
Soft white wheat is generally used for cookies, crackers and other baked goods that do not require high gluten content. This grain is lower in protein. It is not intended for making great bread, but it will perform well in most other baking applications. Chemical Free. GMO Free.

Natural Thick Rolled Oats
Model: GRN193E05
These extra chewy oats produce extremely satisfying robust European-style cereal and yeast breads.

Natural Wild Rice Blend
Model: GRN163E16
Colorful to the eye, delightful texture and full-bodied flavor and aroma all come together in this blend of long grain brown rice, sweet brown rice, Wehani, Black Japonica and select wild rice pieces. Wild Blend is versatile, so serve it up with hearty meals or subtle seafood dishes. Cooking Instructions 1 cup Lundberg Wild Blend® 2 cups water or bouillon 1 tbsp butter or margarine Salt to taste Rinse rice. Put all ingredients in pot with tight-fitting lid. Bring to boil, reduce heat, cover and simmer 45 minutes. Do not remove lid. Remove from heat and allow to sit covered for 10 minutes. Serves 4 to 6. A rice cooker may be used with the same rice-to-water ratio.

Prairie Gold White Wheat 25 pound
Model: GRN300E25
This is the wheat that started a revolution in bread baking. Since we first started selling Prairie Gold® in 1988, thousands of home, specialty and commercial bakers have discovered the unique characteristics of this grain. Its naturally golden color makes 100% whole-wheat baked foods that are lighter and sweeter. It is excellent in all bread recipes, cookies, piecrusts and more. Chemical Free. GMO Free.

Prairie Gold White Wheat 50 pound
Model: GRN300E50
This is the wheat that started a revolution in bread baking. Oil - / - Coconut Oil

Good n Natural Coconut Oil 16oz

Model: OIL131E16

100% Vegetarian The sweet aroma and rich taste of coconuts can be yours with Extra Virgin Coconut Oil. This versatile oil is made from organically grown coconuts and can be used on salads, in sauces, or for cooking. Cococut Oil is a saturated fat that contains three medium chain fatty acids: lauric acid, capric acid and caprylic acid. Medium-chain fatty acids (MCTs) are oxidized differently in the body, making Coconut Oil a readily available energy source , especially for muscle. Extra Virgin Coconut Oil is not deodorized, which means you receive only pure, unrefined coconut oil. IngredientsCoconut Oil

Hain Sunflower Oil 32oz
Model: OIL200E32
Versatile 100% Expeller Pressed Hain Sunflower Oil is best for general cooking -- its neutral flavor makes it excellent for light sauteing, sauces, and salads. Use this oil over medium heat. This is not a hydrogenated oil, rather it is low in saturates which may be beneficial to your health.Vitamin E added to enhance freshness; all naturalIngredients Expeller pressed sunflower oil, mixed tocopherols [Vitamin E(To Preserve quality)]

Hain Walnut Oil 12.7oz
Model: OIL314E12
A sophisticated oil with a light, nutty flavor. It s perfect for light sauteing, sauces and salads..Vitamin E added to enhance freshness; all naturalIngredients Expeller pressed walnut oil, mixed tocopherols [Vitamin E(To Preserve quality)]

Organic Flax Seed Oil Liquid 16oz
Model: OIL642E16
Our Organic Flaxseed Oil is an edible oil derived from the seeds of the Flax plant (<i>Linum usitatissimum</i>) and is one of the best plant sources of the Omega-3 fatty acid alpha-linolenic acid available. It also provides the most concentrated plant source of Omega-3 fatty acids found in nature. Our Organic Flaxseed Oil is filled under a nitrogen blanket to safeguard it from oxygen exposure and it's processed in a climate-controlled atmosphere under yellow lights to ensure the highest level of quality. We also bottle it in a dark container to minimize light exposure. Enjoy the healthy benefits of flaxseed in a convenient-to-use liquid form and reap the rewards of one of the best vegetarian sources of Omega-3 fatty acids found in nature. Through a unique cold processing method, the flaxseeds are pressed at very cold temperatures and are processed without solvents. For adults, take one (1) teaspoonful (5 mL) twice daily, preferably with a meal. As a reminder, discuss the supplements and medications you take with your health care providers. Ingredients: Flaxseed Oil. FREE OF: yeast, wheat, milk or milk derivatives, lactose, sugar, preservatives, soy, artificial color, artificial flavor, sodium (less than 5 mg per serving).
Organic Palm Shortening 112oz
Model: OIL501E112
Palm shortening is derived from palm oil. In its natural state, palm oil is a mixture of saturated and unsaturated fatty acids, with most of the unsaturated fat being monounsaturated fat. Palm shortening is palm oil that has some of its unsaturated fats removed, giving it a very firm texture, and high melting point. The melting point of our Organic Palm Shortening is 97 degrees F., making it very shelf stable. It is NOT hydrogenised, and contains NO trans fats! It is great for deep-fat frying and baking, and is not prone to rancidity. Since it has been separated from some of the unsaturated portion of the oil, it is colorless and odorless, and will not affect the taste of foods like Virgin Palm Oil does.
Organic Shortening 24oz
Model: OIL998E24
Made with organic palm oil, Spectrum Organic Shortening is a healthy, trans-fat free alternative to traditional shortening for flaky crusts and crispy fries. Ingredients 100% Organic Expeller Pressed Palm Oil.
Organic Virgin Palm Oil 32oz
Model: OIL500E32
Tropical Traditions Virgin Palm oil is an unrefined pure palm oil made the traditional way in West Africa. It is certified organic according to strict European and USDA standards. Virgin Palm Oil has a very high smoke point at about 425 degrees F., making it an excellent oil for frying. However, the longer you use high heat, the more you will destroy the natural antioxidants. Virgin Palm Oil should not be reused after one frying. Studies have shown that about 70% of the carotenes are retained after one deep frying, but after 4 deep fries there will be virtually no carotenes left.
Spectrum Organic Canola Oil 32oz
Model: OIL110E32
The ultimate all-purpose cooking oil, our Canola Oil is just as at home in a cake pan as in a wok. Ingredients 100% Organic Expeller Pressed Naturally Refined Canola Oil.

Organic Beans

Organic Adzuki Beans
 Model: BEO100E05

Organic, Small, red beans with high quality protein. The Adzuki Bean, like other edible beans, is used directly as a food. In the Far East, where it is often known as the Mercedes of beans, it is primarily used, after fermentation, as a confectionery product. In North America and Europe it is valued for its relatively low cooking time (approx. 1 hour) as well as low fat and high protein and natural sugar nutritional profile. Soak 1/2 cup of beans overnight in ample water. Drain and simmer in 2 cups of water for 40 minutes to an hour. Alternatively, pressure cook the soaked beans in 2 cups of water for 5-9 minutes at high pressure. If you don't have time to soak the beans, pressure cook for 15-20 minutes. In Japan, adzuki beans are the second most important dry bean crop, where they are cooked with rice or used in confections. Adzuki bean sprouts are the major product in the United States. Young tender pods can be harvested as snap beans. The pod is eaten like snow peas or cooked like common green beans. Dried adzuki beans require one hour of soaking before boiling. Puréed adzuki beans is made by mixing the mature, dried beans with minced garlic, a pinch of turmeric or Chinese mustard, and some grated ginger. It serves as a hot vegetable, is mixed in sour cream or yogurt, used as a salad spread, or as a stuffing in mushroom caps. Another mixture of adzukis, sugar, and water-- serves as a filling for bread, steamed breads or dumplings, and sweet cakes. The beans are high in protein (25%) and easy to digest.

Organic Black Beans
 Model: BEO110E05

Organic, AKA Black Turtle Beans, small, black skinned, oval shaped. A popular choice for soups and rice dishes. Black beans are small (about the size of a pea), oval and jet black. They have cream colored flesh, a mild, sweet, earthy taste, and a soft texture. Black beans, like all dried beans, can be soaked before cooking. This hydration helps to reduce the cooking time, but it does effect nutrient content and flavor adversely. Because they are small, 2-4 hours soaking in cold water should suffice. Drain, and cook as per recipe. If you don't have the time, boil the beans in water for 1-3 minutes, turn off heat, cover the pot and let them sit for one hour. Drain and proceed as per recipe. However, there is a problem with this quick soaking (boiling for 1-3 minutes) method. Hot water increases the solubility of the water soluble nutrients, and softens the cell membranes of the beans, further accelerating the loss of these nutrients. This should be a consideration, because of the long cooking time during which more nutrients are lost. Cold soaked and cooked at a very gentle simmer, beans retain most of their nutrients, which are considerable. To cook, drain the soaking water and add cold water, 1 part beans to 2 or 3 parts cold water. Bring to a boil, then reduce heat to a very slow simmer, so the beans stay in their jackets. Simmer for 2 hours.

Organic Garbanzo Beans
 Model: BEO120E05

Organic, AKA Chickpeas, round, tan and very hard. Widely used in stews, salads and spreads. Like most beans, garbanzo beans are rich in the best sort of fiber-soluble fiber- which helps to eliminate cholesterol from the body. As a high-potassium, low sodium food they help reduce blood pressure. The Garbanzo (Chick Pea) is considered a staple-food of the Middle East as it provides protein and a meaty texture to everything from soups to salads. Hummus is probably the most popular of the Garbanzo bean dishes in America. Dried garbanzo beans carry more vitamins than the ones you find pre-cooked and canned on the shelf. You also bypass preservatives and unnecessary sodium by choosing the natural, dried bean. To Cook: Wash the beans carefully, as they may have debris. Place 1 cup of dried Garbanzo beans in a pot, and cover with water. The water should be about 1-2 inches above the beans. Bring to a boil, reduce heat. Allow to simmer for 4-5 minutes. Remove from heat and allow to soak for an hour. Drain the water, rinse the beans well. Cover the beans in the pot with cold water, again with 1-2 inches of water space above the beans. Bring the water to a boil. Let simmer on medium heat - covered, for an hour or until tender. During the second water replacement, you can add vegetable cubes, spices, carrots, celery, seeded tomatoes and onion to create a stew. The possibilities are endless so be creative.

Organic Great Northern Beans
Model: BEO130E05
Organic, White, larger than navy beans. Can be used in place of navy beans. The dried seeds of green beans, when mature, are known as Great Northern beans. These medium-sized white beans are traditionally prepared in the United States as Boston baked beans, and in France as the dish known as cassoulet. Rather bland-tasting, these beans receptively take on the flavors of the foods with which they are cooked. Before cooking, soak the beans for 8 hours and pressure cook for 20 minutes, or simmer on the stove for 1 1/2 to 2 hours. After cooking with savory spices, Great Northern beans can be puréed into a delicious soup, sauce, or pâté. 1 cup of dried Great Northern beans yields approximately 2 1/2 cups of cooked beans.

Organic Green Lentils
Model: BEO150E05
Organic, Small, flat button shaped legumes. They cook quickly without soaking for soups or casseroles. Lentils are one of the oldest known food crops, with the seed providing a valuable source of iron, and an easily digestible protein content, lentils are low in fat and sodium, and have no cholesterol. Lentils are allowed to dry naturally on the vine and then harvested in the late summer. One-half cup serving of cooked lentils has 20 grams of complex carbohydrates, 4 grams of dietary fiber, 9 grams of protein and only 115 calories. Lentils are one of the richest natural sources of folate!

Organic Green Split Peas
Model: BEO180E05
Organic, Green, flat on one side. They cook quickly and you don t need to presoak. Most often used as a base for a hearty soup.

Organic Kidney Beans
Model: BEO140E05
Organic Large, dark red beans named for their shape. Widely used in chili, soups and salads. Named for their shape, these large, meaty beans may be dark red, light red, or white. Kidneys are the favorite choice for chili, and are also good in soups, salads, and casseroles. White kidney beans are also called cannellini, and are a typical ingredient in Italian dishes such as minestrone.

Organic Mung Beans
Model: BEO175E05
Organic, Small, round and green for sprouting These are the most commonly used beans for sprouting, and are found in most grocery stores. They can also be cooked in soups or ground into flour. These are the easiest to sprout for beginners. Mung bean sprouts are common in Chinese restaurants and grocery stores. They have a delightful fresh raw flavor. When the bright white root grows from 1½ to 2 inches long, they are ready to eat. Cook no more than 3 minutes.

Organic Navy Beans
Model: BEO170E05
Organic, Small and white, Usually used for baked bean dishes because they hold their shape well. Before cooking, soak navy beans for eight hours and then cook, pressure-cook, or bake them. Navy beans are interchangeable with other white beans. 1 cup dried beans makes approximately 3 cups cooked beans. Use these little beans to make a delicious navy bean soup or classic baked beans, or purée them to use as a nutritious spread for crackers or bread.

Organic Pinto Beans
Model: BEO190E05
Organic, Light colored speckled with brown, Very versatile - can be interchanged with kidney beans in recipes, cook and mash for refried bean burritos, or serve with spiced, onions and peppers as a side dish.

Organic Red Lentils
Model: BEO160E05
Lentils are one of the oldest known food crops, with the seed providing a valuable source of iron, and an easily digestible protein content, lentils are low in fat and sodium, and have no cholesterol.

Organic Soup Bean Mix
Model: BEO200E05
Organic, Colorful mixture of Pinto, Navy, Kidney, Great Northern, Black turtle, and Adzuki. Pretty in a jar too!

Organic Soybeans
Model: BEO210E05
Organic, Small, round, and yellow. The most widely used and well known bean found in many products such as soy beverages, vegetarian meats, tofu, and snacks. Highly touted for protecting us from many diseases.

Organic Cheese

Greenfield Farms Organic Colby

Model: CHO610E01

Order by number of pounds you want

Greenfield Farms Organic Colby 8oz

Model: CHO611E08

Hand-crafted from 100% USDA Certified organic milk that comes from our family dairy farms. Our blend of Jersey, Holstein and Guernsey heifers freely graze our pastures.
--

Organic Flour

Arrowhead Mills Organic Buttermilk Pancake Mix 32oz

Model: FLO340E32

Enjoy the endless possibilities baking with Arrowhead Mills Buttermilk Pancake and Waffle Mix. Whether it be traditional muffins or sweet banana bread this baking basic serves up a great tasting home baked delights the entire family will savor.

Arrowhead Mills Organic Multi-grain Pancake Mix 32oz

Model: FLO342E32

Arrowhead Mills Multi-Grain Pancake & Waffle Mix is made with a nutritious blend of organic whole grains including whole wheat, brown rice, yellow corn and rye. The delicious balance of wholesome grains bakes up into scrumptious muffins and more. Easy to prepare – just add water – delicious and nutritious pancakes and waffles are ready in minutes.

Bob s Organic Millet Flour 23oz

Model: FLO140E23

A type of flour ground from millet seeds. Since it is gluten free, millet flour must be combined with high-gluten flour when used in leavened breads. It adds an exceptionally sweet flavor to baked goods.

Lindley Mills Organic White Whole Wheat King Arthur Flour

Model: FLO186E05

This unbleached organic whole grain flour, milled from hard white wheat, is lighter in color and flavor than traditional red wheat, but still has all the fiber and nutrition. Our test kitchen bakers say this whole grain flour comes closer to looking, acting and tasting like "white" flour than any other they ve tested. Use King Arthur 100% Organic White Whole Wheat Flour in place of traditional whole wheat flour, or substitute it for the all-purpose flour in many of your favorite recipes. Start by replacing 1/3 of the all-purpose flour with organic white whole wheat flour; gradually increase the percentage until your baked good s flavor and texture are just the way you like them.

Lindley Mills Organic Whole Wheat Bread Flour

Model: FLO180E05

A type of flour that was developed specifically for bread making. Bread flour is unbleached, high-gluten flour that typically contains 99.9 % hard wheat flour with malted barley added to increase the yeast activity. The high gluten content is necessary in order for bread to rise effectively.

Lindley Mills Organic Whole Wheat Pastry Flour

Model: FLO185E05

A soft-wheat flour with a fine-texture and a high starch content. Pastry flour is finely ground, but it is not as fine as cake flour. It is available in bleached and unbleached varieties and is most often used for making flaky piecrusts, cookies, biscuits, and assorted pastries. It is not suitable for bread making because the gluten content is too low.

Lindley Mills Organic Yellow Corn Meal

Model: FLO131E05

A flour-like substance that has larger granules than regular flour and is produced from grinding dried kernels of yellow corn. Yellow cornmeal can also be ground to a finer consistency and sold as gluten free flour that is used to make cornbread, muffins, pancakes, polenta, and tortillas. Cornmeal is very useful for gluten-free quick breads. Baked goods have a course, gritty texture with a granular crumb and a flavor of sweet corn. Because cornmeal contains no gluten, it must be blended with wheat flour in order to form a bread loaf.

Lindly Mills Organic All Purpose Flour
Model: FLO176E05
For everyday baking

Organic Barley Flour
Model: FLO106E05
Barley flour works well as an ingredient to thicken gravies, sauces and stews. When used for breads, it provides a texture similar a cake texture, high in moisture. Barley flour contains tannins, which may cause problems for anyone sensitive to tannins in baked goods. Barley flour is best when stored in the freezer compartment in a sealed container or tightly wrapped package.

Organic Brown Rice Flour
Model: FLO111E05
A type of flour made from rice kernels that have been processed to remove the outer hulls, but not the nutritious bran layers covering the kernel. When the kernels are ground into flour, the resulting color is only a shade darker than flour milled from polished rice and the texture is not quite as smooth. For most recipes, both brown and white rice flour may be used interchangeably, but brown rice has a nuttier flavor. When used in baked goods, such as cakes and cookies, brown rice flour provides a grainy texture with a fine, dry crumb. Brown rice flour is gluten free so it is not suitable for baking yeast breads, but it can be combined with wheat flour for this purpose. All types of rice flour are high in protein, but brown rice has a higher level of B vitamins, iron, and fiber than white rice flour because the bran is milled with the kernel (endosperm). It is also a suitable substitution for wheat flour for people who cannot tolerate gluten in their diets because of a severe allergic reaction (celiac disease). Brown rice flour has a high oil content (because of the bran and germ), which causes it to become rancid if stored improperly or if stored for an excessive length of time. Brown rice flour is best stored in the refrigerator where it will keep 4 or 5 months. Freezer storage will allow brown rice flour to be used for up to a year.

Organic Lindley Mills Unbleached Flour
Model: FLO175E05
Aside from being organic, what distinguishes this from most white flours is that the germ is restored. The germ — the part of the seed that sprouts and grows into a new plant — contains a great deal of B-complex vitamins and trace minerals. Of course, like all white flours, the bran — wheat's fiber and nutrient-containing outer layer — is not retained.

Organic Oat Flour
Model: FLO146E05
A flour ground from oat groats, which are hulled and cleaned oats. Oat flour is also ground from rolled oats or oatmeal. Oat flour adds texture and a rich nutlike flavor to breads and other baked goods. Using oat flour results in baked items that are moist and more crumbly and they retain their freshness longer than items baked with wheat flour. Since oat flour is gluten free (although there is some debate about this), it must be combined with wheat flour to produce leavened bread. For the best results, use 3 cups wheat flour for every 1 cup of oat flour. For extended storage, oat flour should be placed in an airtight container in the freezer where it will keep for several months.

Organic Rye Flour
Model: FLO155E05
Grains of rye grass that have been ground into fine flour that has a slightly sweet-sour flavor. Low in gluten, it does not contain enough protein to develop the gluten necessary for the bread to rise sufficiently without combining it with wheat flour. The wheat flour contains the protein necessary for gluten development, allowing the bread to rise. Rye flour produces a denser and darker loaf of bread. The darkness and flavor of the loaf will depend on the darkness of the rye flour and the amount of rye flour used. Just a small amount of rye flour combined with wheat flour will add a distinctive flavor to the loaf.

Organic Soy Flour
Model: FLO166E05
A high protein, gluten-free flour ground from roasted soybeans. Soy flour is high in protein and it can be added to wheat flour when making baked goods to boost the protein level of some products. It contains no gluten, so it cannot replace wheat flour entirely in baked goods. It is best to substitute no more than 25% to 30% of the total volume of wheat flour with soy flour to ensure the best results when baking.

Organic White Spelt Flour
Model: FLO171E05
Flour, ground from spelt, which has a mild nutty flavor and is high in protein but low in gluten. It can be substituted for wheat flour in making bread for the gluten and wheat intolerant. Made from spelt that has had the outer hull, or bran, removed.

Organic Whole Spelt Flour
Model: FLO170E05
Flour, ground from spelt, which has a mild nutty flavor and is high in protein but low in gluten. It can be substituted for wheat flour in making bread for the gluten and wheat intolerant. Made from whole spelt.

Organic Grains

Lindley Mills Organic Corn Grits
Model: GRO151E05
This Southern staple is made from corn that s been ground until it has the consistency of coarse sand. It s used as a side dish, a breakfast cereal, or as an ingredient in baked goods.

Lindley Mills Organic Hard Red Wheat
Model: GRO390E05
Flour from hard red wheat is considered “classic” whole wheat. While other varieties of wheat can be made into “whole wheat flour” this is the flour that gives bread a rich brown color and a nutty wheat flavor.

Lindley Mills Organic Multi-Grain Blend
Model: GRO410E05
A combination of Wheat, rye, oats, millet, corn, flax and spelt grains. Use as a cereal or as a healthy additive to your bread.

Lindley Mills Organic Raw Wheat Germ
Model: GRO396E02
The embryo of a seed or kernel of wheat, located at the bottom center of the kernel next to the stalk. It is covered by several layers of outer coating known as the bran layers and is the part of a kernel or seed of grain that can sprout and become a new plant. Highly nutritious, the germ provides protein, fat, vitamins, and minerals when consumed. During the production of some flour such as flour made from wheat grain, the germ may be removed as occurs when producing refined white flour, but it is included as part of the production of whole-wheat flour.

Lindley Mills Organic Wheat Bran
Model: GRO395E02
The outer covering of the wheat kernel. The bran is a brown paper-like coating that is high in fiber. It is removed when wheat is processed into refined white flour, but it is retained when wheat is ground into whole-wheat flour.

Organic Amaranth
Model: GRO110E05
The amaranth seed (or grain) is light tan in color and has a very mild tangy or peppery flavor. Since it is gluten free, it is a good substitute for those who are allergic to grains containing gluten. When used like a cereal grain, it can be processed into cereal flakes, added to baked goods such as muffins and breads, or used to make a hot porridge cereal that is crunchy and nutty tasting. Amaranth can also be used as a food extender, for cookies and desserts, or as a side dish similar to potatoes or polenta. The seeds are often milled into flour that can be used for a variety of baked goods and pasta. As a source of nutrients, amaranth provides protein, calcium, iron and zinc. Amaranth is also known as callaloo, Chinese spinach, quelite, yeen choy, yin choy, hsien, marsa, tamri bhaji, lol cholai, chaulai, Jacob s coat, Joseph s coat, piru namul, or hiyu.

Organic Arborio White Rice
Model: GRO261E05
A type of rice, named after a town in northwest Italy, that is one of the most popular varieties used for Italian risotto recipes. Arborio rice is a short-grain variety that is very plump and like other Italian rice varieties, it contains more starch than many other types of rice. The starch is an important component for creating creamy dishes, such as risotto, so it is important not to rinse the rice before cooking or else much of the starch can be washed away. Besides risotto, Arborio rice is used in dishes such as stir-fried rice, sushi, pudding, and recipes where rice is molded into shapes.
Organic Brown Basmati Rice
Model: GRO260E05
A long-grain rice that is approximately four times longer than it is wide. Basmati is one of the most popular long-grain rice varieties due to its texture, nutty flavor, and popcorn-like aroma. Much of the basmati rice is cultivated in India and Pakistan. The rice is fluffy and dry and the grains do not stick together after it is cooked. Steaming, boiling, and baking are excellent preparation methods for basmati rice, which can be used in pilafs, salads, and a variety of cooked dishes. Basmati rice combines well with sauces and curries.
Organic Buckwheat Groats
Model: GRO130E05
Buckwheat kernels that have been hulled. When the groats are roasted, they are known as kasha, which is a staple in Eastern Europe (especially Russia). Roasted buckwheat groats have a darker color and a stronger flavor than unroasted groats. It is often beneficial to buy unroasted buckwheat groats and then toast the kernels yourself. Home roasting provides a fresher flavor and the degree of roasting can be controlled.
Organic Hulled Barley
Model: GRO120E05
Barley is one of the best grains for use in soups, casseroles, or salads and it has been used for years in brewing beer (once it is malted). Barley is considered to be an excellent ingredient for providing soluble fiber, which helps to reduce cholesterol in the blood. It is also rich in niacin and iron. Whole barley, also called hulled barley (the inedible husk has been removed), is much more nutritious than pearled barley because the bran is left intact.
Organic Hulled Millet
Model: GRO180E05
A variety of related plants bearing small seeds used as a food source. The plants may grow to a height of up to six feet and feature large seed heads, which bear many tiny seeds ranging in color from bright yellow to rust, depending on the variety. Millet was a popular food source in Europe and Asia for centuries and today it has become an important food source for developing nations in Africa. In the United States, millet is most often used as a popular variety of birdseed. Millet has a mild sweetness and crunchy texture and is eaten as a cereal, a side dish, polenta, and as an addition to soups and stews. Millet expands significantly when cooked in a small quantity of water, resulting in a light and dry texture. When more water is used, it develops a thick, mushy texture, much like mashed potatoes, which makes it an excellent side dish. The seeds are especially good if they are toasted before they are cooked in liquid. Millet seeds can be ground into flour, but since millet is gluten free, it must be combined with high-gluten flour when used in yeast breads. Millet is an excellent source of iron and magnesium and it is also high in calcium, phosphorous, manganese, zinc, and B vitamins. It has the highest iron content of any grain except amaranth and quinoa. The natural alkalinity of millet makes it easily digestible, so it is very beneficial for people with ulcers and digestive problems. It is believed to be one of the least allergenic of all grains.

Organic Hulled Oat Groats
Model: GRO190E05
Oats that have been hulled and cleaned, maintaining most of their original nutrients. Oat groats are used in making oatmeal and oat flour.

Organic Hulled Spelt
Model: GRO360E05
An ancient cereal grain that originated in southern Europe, which is related to modern wheat. Many people think of spelt as a type of wheat and although they are of the same family, spelt is of a different species. It was widely cultivated in the United States at the end of the 19th century, but it became less popular when new high yield varieties of wheat were developed. Spelt also lost favor in the United States because it requires more time than wheat to process into flour. The outer hull of the spelt grain remains intact until the grain is processed, which means that more time and effort is required when milling spelt. This differs from wheat, which loses its hull when it is harvested. Although in terms of processing it is a disadvantage for the hull to remain on the grain after harvesting, there are advantages as well. The hull protects the kernel from insects and pollutants and it also allows the grain to maintain freshness and retain its full flavor and nutrients. The flavor of spelt is mild and nutty with a slight hint of hazelnut. It goes well with earthy ingredients and strong sauces, such as those made with garlic and olive oil. European countries use spelt for polenta, whole grain bread recipes, and pasta. Spelt is making a comeback in the United States not only because of its good flavor, but also because of its nutritional qualities. Spelt contains a higher level of protein (up to 25% more) than wheat and it is a rich source of B vitamins and fiber. Other nutrients found in spelt include iron, magnesium, niacin, thiamin, and phosphorus. It has been shown that the carbohydrates in spelt are useful in enhancing the immune system and in helping to clot the blood.

Organic Kamut
Model: GRO170E05
The brand name for a type of grain that is closely related to durum wheat and is often considered a specialty grain. Kamut kernels are 2 to 3 times larger than a typical wheat kernel. The grain has a nutty, buttery flavor and is sold as a whole grain, as flour, and in the form of flakes. Kamut wheat is organically grown and is highly nutritious providing high levels of protein, niacin, thiamine, zinc, magnesium, iron, and riboflavin. The delicious chewy grain is excellent in soups, salads, pilafs, or savory side dishes.

Organic Long Grain Brown Rice
Model: GRO280E05
Rice kernels that have been processed to remove the outer hulls, but not the nutritious bran layers covering the kernel. This gives the rice its brown color and nutty flavor. Rice with a length that is four to five times its width. The rice is fluffy and dry when cooked and because of its low starch content, the rice separates easily without excessive stickiness. Rice can be steamed or baked and is used in salads, main dishes or casseroles, and side dishes of rice.

Organic Medium Grain Brown Rice
Model: GRO310E05
Rice kernels that have been processed to remove the outer hulls, but not the nutritious bran layers covering the kernel. This gives the rice its brown color and nutty flavor. Rice that has a length that is 2 to 3 times its width. When cooked, the rice tends to remain moist and tender, with a moderate stickiness, clinging together more than long grain. This type of rice can be steamed or baked and is used most often for desserts, casseroles, breads, and stir-fry recipes.

Organic Oat Bran
Model: GRO230E05
The outside layer of the oat grain, which is used as a cereal and in baked goods for flavor and texture. It is a dietary fiber and also has cholesterol lowering effects.

Organic Oat Bran Box 16oz
Model: GRO229E16
The outside layer of the oat grain, which is used as a cereal and in baked goods for flavor and texture. It is a dietary fiber and also has cholesterol lowering effects.

Organic Pearled Barley
Model: GRO123E05
The outer husk and bran layers are often removed from the barley grain before it is processed further. This is referred to as "pearled" barley, which is used to produce barley flour, barley flakes, malt, or as an ingredient in other foods. Barley is one of the best grains for use in soups, casseroles, or salads and it has been used for years in brewing beer (once it is malted). Barley is considered to be an excellent ingredient for providing soluble fiber, which helps to reduce cholesterol in the blood. It is also rich in niacin and iron.

Organic Popcorn
Model: GRO240E05
A special variety of dried corn that contains a high moisture content. About 14% of the composition of the kernel is water, which creates steam when the kernel is heated. This causes the popcorn kernels to explode and pop open because the steam cannot escape. Popcorn is typically available in white or yellow varieties. Yellow popcorn has a golden tint and is larger in size, while white popcorn is smaller in size, both as unpopped kernels and when popped. Popcorn is prepared by heating the kernels in a small quantity of cooking oil placed in a heavy skillet or saucepan over high heat. The pan is shaken as the corn pops to keep the corn moving in the pan and to prevent the kernels from burning. When the popping slows significantly, the pan is removed from the heat. The popcorn is eaten plain or it can be seasoned as desired.

Organic Quick Rolled Oats
Model: GRO215E05
Old fashioned oats that are cut into several pieces and then steamed and rolled into thin flakes. Because the flakes are thin and small, they cook up very quickly, requiring about 5 minutes cooking time compared to the 15 minutes need for regular oats. The quick oats lose a little flavor but keep their nutritional value.

Organic Quinoa
Model: GRO250E05
<p>A plant bearing seeds, which are not a true grain, but are used as one. Quinoa (pronounced "KEEN-wah") is of the same botanical family as beets and produces clusters that contain thousands of tiny bead-shaped seeds that range in color from light beige to yellow to almost black. The plant can grow well in poor soil conditions, and favors cool climates and high altitudes, such as the Andes Mountains of South America. It was the most important grain for the Incan civilization. Much of the quinoa used in the United States is imported from South America. A small quantity of quinoa is cultivated on the slopes of the Rocky Mountains in Colorado. When cooked in water, the seeds increase in size significantly, swelling three or four-fold. The cooked seeds become tender, with a springy texture. Uncooked seeds have a crunchy texture and a flavor that may range from mild to slightly bitter. Quinoa will not overpower other ingredients as it complements rice, couscous, beans, stews, and other similar dishes. A powdery resin called saponin covers quinoa seeds, which must be rinsed off before the seeds are used. If the seeds are not rinsed properly, the resin will produce a bitter flavor that can be very unpleasant. Quinoa sold in the United States (including imported quinoa) is washed and well processed, so the saponin is not an issue, but it is usually a good idea to give the seeds a quick rinse before cooking. Nutritionally, quinoa is an excellent grain. It is loaded with protein and the amino acid lysine. Quinoa is also very high in iron and is an important source of calcium, zinc, potassium, magnesium, phosphorus, and copper. Quinoa will keep for long periods (over a year) if it is stored in an airtight container in a cool, dry location away from sunlight.</p>

Organic Quinoa Box 12oz
Model: GRO252E12
<p>QUINOA (keen-wa) was a staple of the ancient Incas and means the mother grain. It is high in iron and has a distinctive flavor and fluffy texture. It makes a tasty choice for casseroles, pilafs and even salads when cooked. Store in a cool dry place. 2 Cups water; 1 cup Arrowhead Mills Quinoa. Rinse quinoa thoroughly either by using a strainer or by running fresh water over the quinoa in a pot and draining. Rinsing it is recommended to wash away any naturally occurring bitter tasting saponins remaining after processing. Place quinoa and water in a 1 1/2 qt. saucepan and bring to a boil. Reduce heat and simmer until water is absorbed (10 to 15 minutes). When done, grains will be translucent and other outer germ layer will separate. Use basic quinoa in any favorite rice or grain recipe. Makes 3 cups. (Saponins are soap-like substances that occur on the outside of the quinoa grains. It is believed they are put there by nature to deter insects and birds.</p>

Organic Regular Rolled Oats
Model: GRO210E05
<p>Oat groat (cleaned, hulled and toasted oat grain) that has been steamed and flattened with a steel roller. They have a good flavor and texture when cooked and are nutritious and good for the digestive system. Old-fashioned oats are used for cereal, granola, bread, cookies and other baked goods. Also known as rolled oats.</p>

Organic Rye Berries
Model: GRO350E05
<p>A plant that produces a cereal grain that has a very assertive and hearty flavor with a slightly bitter taste. Rye grows as tall as 8 feet, thrives in cooler climates, and grows well even in poor soil. The color of the grain may range from beige to dark gray. Rye is actually the one of most widely used grains in many of the northern and eastern European countries including much of Scandinavia and Russia, due in part to the cool climate, which is not suitable for growing wheat. Rye is an excellent source of dietary fiber as well as vitamin E, calcium, iron, thiamin, phosphorus, and potassium. The grain should be stored in an airtight container in a cool, dry location.</p>

Organic Short Grain Brown Rice
Model: GRO320E05
Rice kernels that have been processed to remove the outer hulls, but not the nutritious bran layers covering the kernel. This gives the rice its brown color and nutty flavor. A classification of rice in which the grains must be less than two times longer than they are wide. Some short grain rice varieties are about as long as they are wide (making them almost round). Short grain rice is usually very starchy and the grains have a tendency to stick together after being cooked. It cooks up tender and soft and is most often used for sushi, risottos, stir-fry recipes, and desserts. Short grain rice is very popular in Asian countries.

Organic Steel Cut Oats
Model: GRO73400-4
Steel-cut oats are whole grain groats (the inner portion of the oat kernel) which have been cut into only two or three pieces. They are golden in color and resemble small rice pieces. Steel-cut oats are also known as coarse-cut oats, pinhead oats, Scotch oats, or Irish oats. In comparison, the other main variety, rolled oats, are flake oats that have been steamed, rolled, re-steamed and toasted. Because the steel-cut oats are more natural with less pre-processing, they may be more nutritious than the more popular rolled oats. Steel-cut oats are nuttier, more flavorful, and retain a chewier texture than rolled oats. Like most whole grains, steel-cut oats take much longer to cook than pre-processed oats.

Organic Thick Rolled Oats
Model: GRO200E05
Thick Rolled Oats are manufactured from oats which have been cleaned, dehulled, kilned (lightly roasted), steamed and flaked. Oats have B vitamins, protein, phosphorus and iron, and retain the cholesterol lowering bran.

Organic White Basmati Rice
Model: GRO270E05
A long-grain rice that is approximately four times longer than it is wide. Basmati is one of the most popular long-grain rice varieties due to its texture, nutty flavor, and popcorn-like aroma. Much of the basmati rice is cultivated in India and Pakistan. The rice is fluffy and dry and the grains do not stick together after it is cooked. Steaming, boiling, and baking are excellent preparation methods for basmati rice, which can be used in pilafs, salads, and a variety of cooked dishes. Basmati rice combines well with sauces and curries.

Organic Yellow Corn
Model: GRO150E05
Excellent for grinding into corn meal or corn flour.

White Jasmati Rice 36oz
Model: GRO976761
Jasmati is the American Jasmine Rice. Its appetizing aroma and soft texture make it ideal for a variety of Asian cuisines. Equally at home in desserts or Oriental foods, Jasmine Rice is a delicious alternative to ordinary rice.

White Texmati Rice 36oz
Model: GRO976787
Texmati is the most widely recognized brand of aromatic rice in the US and is frequently requested by name in recipes. Unlike regular rice, Texmati when cooked, has the appetizing aroma of popcorn and a subtle nutty taste. It can be served alone as a delicious side dish or can be used to enhance any recipe.

Ing: durum semolina, niacin, ferrous sulfate (iron), thiamine mononitrate, riboflavin, folic acid.
Annie s Shells & Real Aged Wisconsin Cheddar
Model: PAS297E06
Annie s Cheddar Mac (as we call it!) is our answer to all those chemically orange colored cheeses out there. We ve taken our original Shells & White Cheddar and added a little color to it, naturally! Our totally natural cheese is colored with a plant extract called annatto. Annatto has been used in tropical American cultures for generations to color foods such as butter, cheese and mustard. The annatto tree grows 20 to 30 feet in height and when its seeds are stirred in water, they produce orange annatto dye, also called achiote, to color foods. Annie s Cheddar Macaroni and cheese is a great alternative for kids who need to have that orange cheese on their macaroni.
Annie s Organic Shells & White Cheddar Dinner
Model: PAS298E06
Couscous
Model: PAS302E05
Ratio of pasta to water: 2:1, In a medium saucepan, bring the water to a boil, stir in the couscous, reduce the heat, cover the pan, and simmer it until the water is absorbed (less than 5 min). Transfer the couscous to a large bowl, and stir in the butter until it melts.

Sweeteners - / - Natural Sugar

Demerara Sugar
Model: SWT617E05
A golden-colored sugar with large sparkling crystals and a rich aroma. The sparkling appearance and crunchy texture make it perfect for muffins, cakes, cookies, and desserts. It also make excellent meat glazes. Traditionally, Demerara has been used as a luxury coffee sweetener in Europe. Its distinctive flavor adds a delicious dimension to fine coffees.

Natural Sucanat
Model: SWT514E05
Sucanat, which stands for Sugar Cane Natural, is made by simply crushing the sugar cane extracting the juice and heating it in a large vat. Once the juice is reduced to a rich, dark syrup, it is hand-paddled. Hand paddling cools and dries the syrup, creating the dry porous granules we call Sucanat. And that is it, nothing added and nothing taken out! A simple idea, really.

Savannah Gold Honey Crystals
Model: SWT513E05
Savannah Gold Honey Crystals is an all-natural dry and free flowing sweetener made with unbleached sugar and pure honey. This is the product that other companies sell as Sucanat with Honey. It is light in color, used cup for cup in recipes. Very nice for baked goods.

Unbleached Sugar
Model: SWT610E05
Evaporated cane juice, granulated. Retains small percentage of nutrients without the bleaching process. Use in place of white sugar cup for cup. Flavor is similar to white sugar.

Sweeteners - / - Organic Sugar

Bulk Organic Light Brown Sugar
Model: SWT560E01
Order by number of pounds you want

Bulk Organic Powdered Sugar
Model: SWT801E05
Powdered Sugar is made from 100% certified organic sugar cane, grown and produced without the use of herbicides, pesticides or chemicals. Our powdered sugar is made by simply grinding our Organic Sugar to a fine, creamy powder consistency and adding 3% organic cornstarch to prevent caking. It is rich in molasses, vitamins, minerals and trace elements naturally found in the sugar cane plant.

Organic Brown Sugar 24oz
Model: SWT535E24
Wholesome Sweeteners Organic Fair Trade Light Brown Sugar is soft, moist and fine-grained. It is perfect for all your baking needs and especially good in cakes, cookies and sauces. Use as a 1-for-1 replacement for refined light brown sugar in any recipe.

Organic Evaporated Cane Sugar
Model: SWT615E05
Evaporated cane juice, granulated. Retains small percentage of nutrients without the bleaching process. Use in place of white sugar cup for cup. Flavor is similar to white sugar.

Organic Powdered Sugar
Model: SWT800E16
Powdered Sugar is made from 100% certified organic sugar cane, grown and produced without the use of herbicides, pesticides or chemicals. Our powdered sugar is made by simply grinding our Organic Sugar to a fine, creamy powder consistency and adding 3% organic cornstarch to prevent caking. It is rich in molasses, vitamins, minerals and trace elements naturally found in the sugar cane plant.

Organic Sucanat
Model: SWT520E05
Sucanat, which stands for Sugar Cane Natural, is made by simply crushing the sugar cane extracting the juice and heating it in a large vat. Once the juice is reduced to a rich, dark syrup, it is hand-paddled. Hand paddling cools and dries the syrup, creating the dry porous granules we call Sucanat. And that is it, nothing added and nothing taken out! A simple idea, really.

Sweeteners - / - Other Sweeteners

Barley Malt Syrup 20oz
Model: SWT110E20
USA organically grown barley, sprouted, kiln roasted, and slowly cooked into a thick, dark brown syrup- an ancient process using only the grain's own enzymes created in the sprouting process, and the knowledge and care of artisan maltsters. A rich mellow sweet flavor that's half as sweet as refined sugar. Ideal for baking, especially spice cakes, gingerbread, dark breads, baked beans, barbecue sauces, candied vegetables and home brewing. 76 percent maltose. A clean tasting, healthy, intelligent sweetener made from whole grain.

Blackstrap Molasses 32oz
Model: SWT250E32
Unsulphured Ingredients: blackstrap molasses, cane juice.

Brown Rice Syrup 21oz
Model: SWT400E16
Lightly sweet, honey-colored and smooth. Lundberg's Sweet Dreams, a nutritive sweetener about one half as sweet as sugar, brown rice syrup is a healthful, tasty alternative for those who watch their sugar intake. Bake with it, pour it over ice cream or pancakes, or stir it into your favorite coffee.

Fructose
Model: SWT120E05
A naturally occurring fruit sugar, also referred to as levulose, which is present in fruits, honey and a variety of plants. When water, carbon dioxide and energy from the sun are absorbed by plants, the combination of these elements are turned into simple sugars known as Glucose and Fructose. As Fructose combines with glucose, a substance identified as Sucrose is created, which is more commonly referred to as cane, white or table sugar. Many individuals with sensitivities to sugars, prefer using Fructose as a substitute for cane sugar, since it metabolizes slower than Fructose and does not raise Glucose or blood sugar levels as quickly. Fructose, which is also known as a simple sugar or a simple carbohydrate, provides the sweetest flavor of all sugars particularly when it is used as a cold sugar rather than a warm sugar. It is a sugar that is typically produced from corn starch to be used as a sweetener in soft drinks, fruit beverages, dairy products, ice creams, baby foods, and pharmaceuticals.

Organic Blackstrap Molasses 16oz
Model: SWT241E16
Wholesome Sweeteners Organic Molasses is a blackstrap molasses with a rich, full-bodied robust flavor that adds natural color and opulent caramel molasses tones in recipes. It is especially good in molasses cookies, in other baked goods, breads, sauces, BBQ sauces and in marinades. It can be used as a one-for-one replacement for refined blackstrap molasses.

Organic Blackstrap Molasses 32oz
Model: SWT240E32
Wholesome Sweeteners Organic Molasses is a blackstrap molasses with a rich, full-bodied robust flavor that adds natural color and opulent caramel molasses tones in recipes. It is especially good in molasses cookies, in other baked goods, breads, sauces, BBQ sauces and in marinades. It can be used as a one-for-one replacement for refined blackstrap molasses.

Tea & Coffee - / - Coffee

Cafe Altura French Roast Beans 2 pounds

Model: TEA920E02

The term French Roast may be derived from New Orleans where roasters would use frying pans to roast black coffee. This roast is most popular because of its robust, tangy taste.

Cafe Altura House Roast Beans 2 pounds

Model: TEA921E02

Our House Blend organic coffee is a perfect coffee for any occasion! A blend of mild Mexican coffees that provide the sweet, mild taste of our Regular Roast coffees with the robust tang of our French Roast. Our House Blend is mild acidity with a light body.

Cafe Altura Regular Roast Beans 2 pounds

Model: TEA922E02

The American roast is the lightest roast of our coffees. This roast tends to give our coffees a smooth and creamy taste in the cup.

Eastern Shore Coastal Roasting Oyster Roast Ground

Model: TEA700E01

Ground Coffee This coffee is roasted by our neighbors from the Eastern Shore Coastal Roasting Company. Slightly earthy, bold & full bodied, this blend of Indonesian & Colombian coffees offers the smokey intensity of a dark roast with wine & citrus notes and a fine finish. Part of the proceeds from this coffee go towards the Waterman s Memorial in Oyster, VA.

Eastern Shore Coastal Roasting Oyster Roast Whole Bean

Model: TEA701E01

Whole Bean This coffee is roasted by our neighbors from the Eastern Shore Coastal Roasting Company. Slightly earthy, bold & full bodied, this blend of Indonesian & Colombian coffees offers the smokey intensity of a dark roast with wine & citrus notes and a fine finish. Part of the proceeds from this coffee go towards the Waterman s Memorial in Oyster, VA.

Organic Dark Roast Ground Coffee 12oz

Model: TEA902E12

Often referred to as Full-City or Viennese this roast is sometimes preferred as an after-dinner drink. It is roasted slightly longer for just the right amount of hearty, full-bodied taste.

Organic Decaf Regular Roast Ground Coffee 12oz

Tea & Coffee - / - Tea

Breathe Easy Tea 16 Bags
Model: TEA500E16
Promotes Respiratory HealthHerbal Dietary SupplementHow does it taste? It s a complex blend of herbal tastes - spicy, aromatic, somewhat bitter and astringent, and slightly sweet.

Female Toner Herbal Tea
Model: TEA519E16
Supports Female SystemsHerbal Dietary SupplementFemale Toner supports female systems* by combining herbs to support healthy menstruation, purify blood, and to strengthen and tone the uterus.* Female Toner uses a tonic approach to women s health and is based on the traditional use of raspberry and strawberry leaves as well as other women s herbs used in several cultures throughout the world to ease the difficulties of balancing female cycles.How does it taste? It s a pleasant blend of herbal tastes- slightly bitter and astringent with citrus and mint.

Ginger Aid Tea 16 Bags
Model: TEA524E16
Promotes Healthy DigestionHerbal Dietary SupplementOrganic Ginger Aid promotes the flow of digestive juices and increases tone in the muscular walls of the stomach,* a normal process that keeps the digestive system ready to function. Ginger tea is traditionally used for indigestion and clinical data supports its use for the prevention of nausea and vomiting.* How does it taste? There s lots of pungent, spicy ginger in Organic Ginger Aid. It s also sweet, with a twist of lemon (lemon myrtle, that is).

Gypsy Cold Care Tea 16 Bags
Model: TEA506E16
Pharmacopoeial Quality Herb, Tested for Strength & PurityHerbal Dietary SupplementGypsy Cold Care® is a complex and aromatic blend of herbal tastes – pungent, slightly bitter, minty and sweet.

Herbal Authority Chamomile Tea
Model: TEA602E35
This gentle, soothing tea enjoys a centuries-old tradition as a universal tea-time favorite. Its smooth flavor and sweet apple-like aroma give it a distinct appeal. Blended from the delicate, daisy-like blossoms of the chamomile flower, this formula is caffeine free and contains no artificial ingredients. Treat yourself to a refreshing, soothing cup of all-natural Herbal Authority tea. Our discriminating selection of delicious herbal teas offer you an oasis of contentment on even the most hectic days. Created form the finest, freshest herbs and purest natural ingredients, Herbal Authority teas are steeped in tradition. Their soothing qualities and satisfying flavor embody all the benefits that tea drinkers first discovered in Asia centuries ago.

Herbal Authority Chinese Green Tea
Model: TEA600E35

Model: TEA507E18
Supports Throat Health Herbal Dietary Supplement Just for Kids Organic Throat Coat is made especially for children. Formulated using classic European herbal combinations - children will enjoy its slightly sweet and spicy flavor.

Organic Echinacea Plus Tea 16 Bags
Model: TEA516E16
Supports the Immune SystemHerbal dietary supplementOrganic Echinacea Plus activates and stimulates immune cells*. How does it taste? A fresh and mild mint flavor with a twist of citrus. You can taste a characteristic tingle on your tongue from the alkylamides in Echinacea, which is one of the important indicators or herb quality.

Organic Mother s Milk Tea 16 Bags
Model: TEA512E16
Promotes Healthy LactationHerbal Dietary SupplementOrganic Mother s Milk promotes healthy lactation* and is traditionally used to increase breast milk production.* This traditional combination of anise, fennel and coriander has been used for centuries by European women and is often recommended by lactation counselors and medical herbalists. How does it taste? A pleasantly aromatic balance of sweet, spicy and slightly bitter.

Organic Peppermint Tea 16 Bags
Model: TEA522E16
Promotes Healthy DigestionHerbal Dietary SupplementPeppermint tea promotes healthy digestion by relieving mild gastrointestinal tract conditions that occur after eating. Mint leaves have been used in medicine for several thousand years according to records from the Greek, Roman and ancient Egyptian eras. Peppermint tea is approved in Canada and in several European countries as a digestive aid for occasional indigestion, and it is particularly helpful with flatulence and a sensation of fullness.How does it taste? The aromatic taste and cooling sensation of peppermint is unmistakable! Children and adults alike enjoy its refreshing flavor.

Organic Raspberry Leaf Tea 16 Bags
Model: TEA521E16
Supports the Female SystemHerbal Dietary SupplementOrganic Raspberry Leaf tea supports the female system by aiding healthy menstruation as well as toning the uterus in preparation for childbirth. For millennia European and Native American women have safely used raspberry leaf for irregular menstruation, menstrual cramps and during pregnancy. Today naturopaths and nurse-midwives often recommend raspberry leaf tea for these traditional uses. How does it taste? Raspberry leaf has a robust, full-bodied flavor reminiscent of fine black tea, making it an excellent choice for a caffeine-free breakfast or afternoon tea.
Organic Red Rooibos Tea 16 Bags
Model: TEA530E16
Fair Trade CertifiedHerbal Dietary SupplementOrganic Rooibos with Honeybush is a healthy and refreshing, caffeine-free, beverage tea with significant antioxidant capacity.* All of the herbal ingredients in our Organic Rooibos with Honeybush contribute to its antioxidant activity and provide an alternative to caffeine-containing teas like black tea, green tea and maté.This certified organic and Fair Trade rooibos herb is grown by the Wupperthal co-operative of small farmers (30% women) living in the rugged Cedarberg Wilderness Area of South Africa. The premium that we pay for this rooibos tea provides additional income for the rooibos growers, providing lasting benefits for their families and community.How does it taste? Mildly sweet and sour with the characteristic woody taste of rooibos. Children and adults alike enjoy its refreshing taste.
Organic Roasted Dandelion Root 16 Bags
Model: TEA529E16
Promotes Healthy Liver FunctionHerbal Dietary SupplementDandelion root tea has shown choleric effects, which means that it can stimulate the liver to increase bile flow.* Once bile is released by the liver, its two main functions are to carry away waste and to break down fats during digestion. Dandelion s beneficial effects on liver and biliary tract function have been proven in pharmacological studies* and have a long history of use in traditional European herbal medicine.How does it taste? A pleasant roasted taste, sweet and slightly bitter.
PMS Tea 16 Bags
Model: TEA514E16
Promotes A Healthy CycleHerbal Dietary SupplementPMS Tea promotes a healthy pre-menstrual cycle by temporarily reducing water retention.* PMS Tea contains herbs traditionally used to eliminate excess fluid by supporting kidney function,* which is responsible for maintaining fluid and electrolyte balance in the body. It also supports liver function,* which breaks down excess estrogen, a factor in cycle-related water retention. How does it taste? It s an earthy, roasted grain taste, with a balance of slightly bitter and sweet.
Pregnancy Tea 16 Bags
Model: TEA518E16
Supports Healthy PregnancyHerbal Dietary SupplementPregnancy Tea supports healthy pregnancy* by combining herbs used for thousands of years by women in Europe and North America to tone uterine muscles, provide nourishment and prepare the womb for childbirth.* Modern pharmacological studies on raspberry leaf, a primary ingredient in Pregnancy Tea, substantiate its traditional uses and the 1996 British Herbal Pharmacopoeia indicates its use in preparation for childbirth. How does it taste? It s a pleasant blend of herbal tastes - astringent, slightly bitter and spicy, with aromatic spearmint.

Smooth Move Tea
Model: TEA535E16
Herbal Stimulant Laxative*Herbal Dietary SupplementSmooth Move provides gentle, overnight relief from occasional constipation. Senna leaf promotes bowel movement by direct action on the intestine.* A single serving provides an effective dose of sennosides from senna leaf, which have proven stimulant laxative action and are generally recognized as safe and effective by the U.S. FDA. We include additional digestive support with fennel, orange peel, cinnamon, coriander and ginger to ease discomfort and reduce cramping. How does it taste? It s sweet and slightly bitter, with citrus-orange and spicy notes...best tasting laxative you ll ever drink!

Throat Coat Tea 16 Bags
Model: TEA508E16
Supports Throat HealthHerbal Dietary SupplementHow does it taste? It s sweet, aromatic and earthy.

Womens Liberty Tea 16 Bags
Model: TEA520E16
Promotes Healthy Hormonal BalanceHerbal Dietary SupplementWomen s Liberty promotes healthy hormone balance* by combining herbs to support the production and regulation of hormones.* Women s Liberty is formulated according to Traditional Chinese Medicine combination theory to nourish and warm the blood and regulate menses. How does it taste? It s an earthy and aromatic balance of sweet, pungent and slightly bitter herbal tastes.
